CV/Profile:

MEDICOLEGAL ACTIVITY

I have undertaken medico-legal work for the last twenty years. I am conversant with the new part 35 civil procedure rules. I accept roughly ninety to one hundred new instructions a year. I accept instructions for both claimant and defendant with no preference. I am now very rarely instructed as a single joint expert. The bulk of the work is personal injury but I am being instructed more frequently now in negligence cases.

Over the last three years I have been instructed by 112 Solicitors and have given 57 reports in Negligence cases

I have attended educational courses in medicolegal report writing and giving oral evidence in court. I am a member of the UK register of expert witnesses and have had my anonymised reports vetted.

I am a member of the Medico-Legal society.

I have attended an intensive MEDIATION course and passed the course examination.

I have given oral evidence in personal injury and clinical negligence cases for the claimant and defendant in the District, County and High Courts.

I have given oral evidence at an Industrial tribunal.
