### **MANAGEMENT**

I have been directly responsible for the following members of University or NHS staff:

Dr Darren Williams, PhD Student  
Dr Paul Wilson, Clinical Research Fellow  
Mr Martin Wadley, Clinical Research Fellow  
Mr John Whiting, Clinical Research Fellow  
Mr Mangta Manu, Clinical Research Fellow  
Mr Roger Brammer, Clinical Research Fellow  
Mr Anant Desai, Clinical Research Fellow  
Ms Sarah Barclay, Research Nurse  
Ms Patricia Donoghue, Research Nurse  
Mr Michael O'Keefe, Research Nurse  
Ms Josephine Lee, Research Nurse  
Mr Eoin Scott, Research Nurse  
Ms Catherine Markham, Research Nurse  
Ms Helen Hewitt, Research Nurse  
Mr Abraham John, Trust Grade/Research Fellow  
Mr Edward Alababra, Trust Grade/Research Fellow  
Mr Chandra Bhatti, Trust Grade/Research Fellow  
Mr Anand Bhatt, Trust Grade/Research Fellow  
Mr Ricky Bhogal, Trust Grade/Research Fellow  
Mr David Bartlett, Trust Grade/Research Fellow  
Mr Rupesh Sutaria, Trust Grade/Research Fellow  
Mr Timothy Evans, Trust Grade/Research Fellow  
Mr Barney Stephenson, Trust Grade/Research Fellow  
Mr Gregory Moorlock, PhD Student  
Mr Richard Wilkin, Trust Grade/Research Fellow  
Mr Richard Laing, Trust Grade/Research Fellow

I was responsible for negotiating the financial contracts for the majority of these posts with the post sponsors, I formulated the posts and wrote the job descriptions and was responsible for short-listing and interviewing all of the candidates. Following their appointment I have become their in-line manager and clinical project supervisor, in the majority of cases I am also their academic supervisor.

I have maintained a strong academic record as a consultant:

- Development and funding for 3 substantive Trust Grade Research Fellows
  - These posts now form an integral part of the Liver Unit staffing at weekends and during the week they were based in laboratories carry out basic science research.
  - In the early stages I helped supervise their research degrees but more recently this was carried out by Prof D Adams and Prof P Newsome and I provided clinical mentorship.
  - 4 of these candidates have gone on to obtain MRC Training fellowships.
- Since 1995 I have supervised 6 students studying for an MD and all but one have been awarded, in addition I have also supervised 2 students who have been awarded PhDs.
- I have also supervised 7 research nurses (plus 4 NCRN research nurse posts) all who have been involved in carrying out clinical trials on my behalf
- I have been both an internal and an external examiner for MD theses.
- Since 1993 I have been involved in raising more than £2.5 million of research grants.

- Recently: funding from AHRC for a PhD into the ethical study of directed donation.
- As a collaborator in the CRCUK funded ESPAC 4 prospective tissue collection.
- Active recruitment into clinical trials; major recruiter into ESPAC3, BilCap, GemCap, Silver study
- 2002-2003: data safety monitoring committee for PRT 030 & 031 trials.
- 2000-2001: Trial steering committee for Aphton PC3 trial.
- 2002: Clinical advisor to Bristol Myers Squibb.
- 2009-2014: Member of UHB Charities Grant Committee.
- Current journal reviewer for: British Journal of Surgery, Digestive Surgery, World Journal of Surgical Oncology, JSM Microbiology.
  - Previous reviewer for Lancet, Nature Reviews Cancer, British Journal of Cancer, GUT, Expert Opinion on Investigational Drugs and the International Journal of Cancer, Transplantation, Liver Transplantation, American Journal of Transplantation
- 2009-current: member of editorial Board of World Journal of Gastrointestinal Surgery
- 2013-current: member of editorial Board of World Journal of Gastroenterology
- 2016-current: member of editorial Board of The Open Access Journal of Science and Technology
- 2009-current: Editorial Board International Journal of Hepatology
- 2017-current: Editorial Board Journal of Gastroenterology and Digestive Systems
- 2017-current: Editorial Board Open Access Journal of Surgery
- 2017-current: Editorial Board Journal of Hepato-Gastroenterology
- 2017-current: Editorial Board Advanced Emergency Medicine
- CRUK Stratified Medicine Programme – Board of Human Tissue Repository
- MRC grant peer review process
- Commonwealth Scholarship Commission Panel of Advisers 2010-current
- Peer review for Government of Hong Kong Research programme

Since becoming a consultant I have been actively involved in Trust & other National management:

- 2006-2008: clinical representative on modernising patient administration working group.
- 2006- 2009: liver surgical representative on Hospital @ Night working group.
- Development of junior doctor deal and EWTD compliant rotas for liver unit doctors.
  - Employment of new staff
  - Development of Research Fellow grade
- 2002-2009: Clinical lead for organ procurement, oversaw merger of Birmingham with Coventry teams, further increase in coordinators and finally the transfer of all services to NHSBT.
- Business cases for NHBD, LRLT and Laparoscopic HPB surgery as above.
- 2002-2008: Clinical lead for NCRN within Trust. Management of 4 NCRN funded research nurses.
- 2005-2008: Clinical Lead for Choose and Book.
- 2005-2006: Surgical representative on Theatre A\* equipment committee for the new hospital development.
- 2005-2006: Member of UK Transplant working group investigating zonal liver allocation.
- 2005-2006: National peer reviewer for National Cancer Peer Review Programme.
- 2007-2010: member of BTS Council.
- 2005-2006: BTS higher awards committee.
- 2006-2009: member of council for Pancreatic Society of GB and Ireland.
- 2006: Author of a damning report into organs lost to transplantation. I wrote the report and circulated copies to Intensive Care Society, BMA, ASGBI, all political parties and to the DH. After several meetings with the DH, Rosie Winterton (then minister with responsibility for transplantation) agreed to the setting up of the Organ Donation Task Force.
- 2006-2013: Transplant surgical representative on the DH ODTF. Successful completion of 2 reports into aspects of organ donation.
- 2008-2013: Laboratory Automation Committee, as part of the move to the new hospital.
- 2009-2014: UHB Organ Donation Committee, set up in response to the report from ODTF.
- 2008-2014: elected representative on the Trust Clinical Excellence Awards Committee.
- 2008-2009: New Hospital Bed Allocation Committee.
- 2008-2014: member of novel therapeutics committee.

- 2007-2009: Trust appointed Associate Divisional Director for length of stay, discharge and theatres.
  - Development of a strategy for Trust wide pre-admission services.
  - Development of strategy to deliver admission on day of surgery
  - Development of electronic notification of expected length of stay.
  - Development of strategy for Trust wide Discharge team to deal with long stay patients.
- Leading the Best in Care - Leadership course
- RCS invited review mechanisms
- UHB Clinical Governance case review of individual performance
- UHB representative on NHSBT LAG
- 2010-2013 BTS Councillor without Portfolio
- RCS Board of Assessors
- NPSA Safety Alert Task & Finish Group
- 2011-2014: Chairman of UHB Medical Staff Committee
- 2012-2014: Deputy Divisional Director for General Internal Medicine, Emergency Department & Outpatients
- 2016: Emergency Surgical assessment Unit Short Life Working Group
- 2016-current: NatSSIPs Implementation Committee
- 2016-current: Surgical Lead for Resuscitation Committee
- 2016: Chairman Task & Finish Group for Implementation of NECPOD Recommendations in Acute Pancreatitis
- 2017-current: Clinical Lead for Outpatient Productivity

## TEACHING

As a temporary lecturer in anatomy I taught medical and dental undergraduates, in both a formal classroom setting and individually in the dissecting room. I also examined undergraduate medical and dental students for their first MB, or equivalent, in topographical anatomy and histology. This involved both marking written material and anatomy viva-voce examinations.

I have supervised medical students undertaking their Public Health and Epidemiology projects the data contained within them has been presented at the West Midlands Surgical Society and Midlands Gastroenterological Society meetings.

I have taught medical undergraduates in clinical subjects, at the patients' bedside, in practical techniques and in more formal tutorials. I have been actively involved in the third year surgical students formal lecture programme; I have lectured to the 4th year dental students and 1st year medical students on anatomy. Ever since obtaining my FRCS I have been involved in formal and informal teaching and mock clinical examinations for fellowship candidates and more recently for students sitting their FRCS(gen surg).

I have designed and taught a special study module on pancreatic cancer to 3<sup>rd</sup> year medical students. This involves 30 hours of clinical teaching to a small group of students on a specific topic. The students are shown the interrelationship between basic science and clinical management of pancreatic cancer; present a clinical case and each produce a dissertation.

I was a lead tutor in the digestive disease module to the pre-clinical undergraduate students and designed and produced part of this course. This involved four hours of tutorial-based teaching.

I have been a University internal examiner for higher degrees and have been involved as an examiner for the MBChB and BDS.

I have also been involved in the following:

- 2002-2008: UHB clinical lead for 5<sup>th</sup> year surgery.
- Educational Supervisor for one FY1 and one specialist trainee each year.
- 2005: Development of Liver Unit as a Postgraduate Training Institution recognised by the GMC for overseas graduates to obtain GMC registration.
- Bedside/clinical teaching of 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> year medical students.
- Liver unit clinical lead for work experience students.

- Lecture based teaching to 3<sup>rd</sup> medical students, regional trainees, foundation year doctors and professions allied to medicine.
- National lectures on organ donation, liver transplantation and HPB surgery.
- 2005-2007: elected member of the British Transplantation Society Education and Training Committee.
- 2007-2010: Chairman of the BTS Training and Education Committee.
- 2007-2010: BTS representative on the ASGBI Education Training Board.
- 2008: Validator for PG Certificate in Medical Education for Surgeons – University of Dundee
- Member of NHSBT education group to develop syllabus for delivery of education around organ donation.
- Development with others of MSC in Organ Donation.
- RCS MRCS e-learning package.
- University of Birmingham representative on WM Deanery School of Surgery.
- Joint Supervisor with Professor H Draper for intercalated BA Ethics:
  - Elin Thomas - *An analysis of the ethical issues surrounding split liver transplantation informed by stakeholder views*
  - Aisha Gathani - *Does the type of consent given affect the extent to which Donation after Circulatory Death can be considered in a patient's interests?*
- 2015 – current: Senior Academy Tutor for surgery Wye Valley NHS Trust.
- 2016 – current: OSCE examiner University of Birmingham Medical School.
- 2016 – current: Invited outside mentor to the Pakistan Army Liver Transplant Unit for the development of a HPB Unit.

## RESEARCH

### Thesis Abstract

Proteolytic degradation of the extracellular matrix (ECM) is an essential component of tumour spread. The matrix metalloproteinases (MMPs) are capable of degrading different substrates within the ECM. The MMPs belong to a family of proteolytic, zinc-binding enzymes involved in several physiological processes such as angiogenesis and morphogenesis. The functional activity of the activated forms of the MMPs is controlled by specific tissue inhibitors of the metalloproteinases (TIMPs). Prior to my publications in this area very little was known of the role of MMPs and TIMPs in pancreatic cancer.

The aim of my thesis was to characterise the expression of several of the key MMPs and their specific TIMPs. Expression was determined in human pancreatic cancers, chronic pancreatitis and healthy pancreas using immunohistochemistry and Northern analysis. The expression of the MMPs and TIMPs was compared with clinical and histopathological features of the disease known to affect prognosis. The cell types involved in expression of the enzymes were determined by in-situ hybridisation. Several human pancreatic cancer cell lines were characterised for MMP and TIMP expression and a number of MMP inhibitors were tested for their ability to inhibit invasion of the basement membrane in an in-vitro model.

## RESEARCH SUPERVISION

1. **PhD Student**, October 1995-September 1998. Mr D Williams.

The regulation of activation and expression of MMPs and TIMPs by hypoxia and VEGF in pancreatic cancer.

**Awarded 2000**

2. **MD Student**, April 1997-Mar 1999. Mr M Wadley.

Circulating tumour cell release and expression and activation of MMPs in patients with primary breast cancer.

**Awarded 2001**

3. **MD Student**, June 1997-May 1999. Mr J Whiting.

The relationship between the MMPs and apoptosis in gastric cancer and pre-malignant gastric lesions.

**Awarded 2004**

4. **MD Student**, February 1998-February 2000. Mr M Manu.  
The influence of neural factors on perineural invasion in pancreatic cancer.  
**Never Submitted**

5. **MD Student**, August 2000-May 2002. Mr Roger Brammer.  
The role of anti-angiogenic factors in acute pancreatitis.  
**Awarded 2003**

6. **MD Student**, March 2001-September 2003. Mr Anant Desai.  
The role of anti-angiogenic factors in gastro-oesophageal cancer.  
**Awarded 2008**

7. **MD Student**, November 2003 –July 2008. Mr A John.  
Endostatin Regulation in HPB Malignancy.  
**Awarded 2009**

8. **PhD Student**, October 2003 - 2005. Mr E Alababra.  
Macrophage Induction in Chronic Liver Rejection.  
**Awarded 2009**

9. **PhD Student**, October 2009 – September 2012. Mr Gregory Moorlock.  
Conditional Organ Donation.  
**Awarded 2013**

10. **MD Student**, October 2000 – May 2006. Mr Anthony Kawesha.  
Prognostic Molecular Markers in Resected Ductal Pancreatic Carcinoma.  
**Awarded 2017**

**OTHER ACTIVITIES**

I was chairman of my schools Young Enterprise Company in 1981/2 that won the Midlands Regional Young Enterprise competition and came 6th nationally. On a personal level, prizes were won in the Young Enterprise commerce examination; first place in the Midlands, and in the top ten nationally. From 1972 to 1983 I had a continuous interest in scouting through cubs to venture scouts and then to scout leader with a local group, winning the venture scout award.

My fourth year elective period was spent in Africa. I lived for 2 months at Uzuakoli leprosy settlement, Imo State, Nigeria, working with chronically disabled patients. During this period I surveyed the disabilities of the 199 long-term residents at the settlement, documenting the neurological damage caused by their disease.

I have two adult children and most of my spare time is taken up with family orientated activities.

I have also reviewed manuscripts for the Lancet, Nature Reviews Cancer, British Journal of Cancer, GUT, British Journal of Surgery, Transplantation, Digestive Surgery, Expert Opinion on Investigational Drugs and the International Journal of Cancer. I have been involved in reviewing and editing the pancreatic cancer page of the CancerHelp UK web site and patient information material for The British Liver Trust. I have also reviewed grant applications for the Royal College of Surgeons of England Fellowship programme.

I have worked with Bristol Myers Squibb and Daiichi as an advisor on clinical trials in pancreatic cancer and sat on the steering committee for the Apton sponsored PC3 trial. I was the only European representative on a Data Safety Monitoring Board for a Daiichi clinical trial in pancreatic cancer.

1. **Bramhall SR**, Cummins C, Jones AG, Allwood A, Neoptolemos JP.  
Incidence, treatment, and survival in 13,560 patients with pancreatic cancer: an epidemiological study in a UK region (abstract).  
**GUT** 1994;35:A576.
2. **Bramhall S**, Cummins C, Jones AG, Allwood A, Neoptolemos JP.  
Incidence, treatment, and survival in 13,560 patients with pancreatic cancer: an epidemiological study in a UK region (abstract).  
**Digestion** 1994;55(5):286.

3. **Bramhall S**, Lemoine N, Stamp G, Donovan I, Dunn J, Neoptolemos J.  
72kDa collagenase, stromelysin-1 and tissue inhibitor of metalloproteinase-1 expression in pancreatic cancer (abstract).  
**Digestion** 1994;55(5):286.
4. **Bramhall SR**, Lemoine NR, Stamp GWH, Neoptolemos JP.  
Enhanced expression of matrix metalloproteinases is often unopposed by their inhibitors (tissue inhibitors of metalloproteinases) in pancreatic cancer (abstract).  
**British Journal of Surgery** 1995;82(5):707-708.
5. **Bramhall SR**, Michell NP, Eggo MC, Langman MJS, Neoptolemos JP.  
Enhanced mitogenic activity of insulin-like growth factor by insulin-like growth factor binding proteins in pancreatic cancer cell lines (abstract).  
**British Journal of Surgery** 1995;82(5):705-706.
6. **Bramhall SR**, Lemoine NR, Stamp GWH, Neoptolemos JP.  
MMP upregulation in pancreatic cancer is not countered by an upregulation of TIMPs (abstract).  
**Digestion** 1995;56:275.
7. **Bramhall SR**, Lemoine NR, Stamp GWH, Neoptolemos JP.  
Aggressive MMP upregulation in pancreatic cancer (abstract).  
**British Journal of Surgery** 1995;82(11):1568.
8. Evans JD, Wilson PG, **Bramhall SR** Neoptolemos JP.  
Outcome of surgery for chronic pancreatitis (abstract).  
**GUT** 1996;38:795.
9. **Bramhall SR**, Lemoine NR, Stamp GWH, Neoptolemos JP.  
MMP and MTMMP upregulation is not countered by an upregulation of TIMP2 in pancreatic cancer (abstract).  
**GUT** 1996;38:797.
10. **Bramhall SR** for the UK Pancreatic Cancer Trials Group.  
Adjuvant combined radiotherapy and chemotherapy for pancreatic cancer (abstract).  
**GUT** 1996;38:798.
11. Hastie RH, Baban D, Evans JD, Green NK, **Bramhall SR**, Neoptolemos JP, Seymour LW.  
Expression of vascular endothelial growth factor in pancreatic carcinomas and in the serum of cancer patients (abstract).  
**Digestion** 1996;57:235.
12. Evans JD, Wilson PG, Carver C, **Bramhall SR**, Mayer D, McMaster P, Buckels JA, Neoptolemos JP.  
Outcome of surgery for chronic pancreatitis (abstract).  
**International Journal of Pancreatology** 1996;19:218-219.
13. Evans JD, **Bramhall SR**, Neoptolemos JP, Eggo MC.  
Mechanisms of apoptosis in pancreatic cancer cell lines (abstract).  
**International Journal of Pancreatology** 1996;19:218.
14. Evans JD, **Bramhall SR**, Stark A, Kinley H, Porter C, Osborne L, Daniel F, Carmichael J, Imrie C, Johnson CD, Neoptolemos JP.  
A phase II trial of marimastat (BB-2516) in advanced pancreatic cancer (abstract).  
**International Journal of Pancreatology** 1996;19:218.
15. Baban DF, Hastie RF, Neoptolemos JP, **Bramhall SR**, Seymour LW.  
Expression of vascular endothelial growth factor (VEGF) in pancreatic carcinomas (abstract).  
**British Journal of Cancer** 1996;73(suppl.26):163.

16. Hastie RH, Baban D, Evans JD, Green NK, **Bramhall SR**, Neoptolemos JP, Seymour LW.  
Expression of vascular endothelial growth factor in the primary tumours and sera of patients with pancreatic cancer (abstract).  
**British Journal of Surgery** 1996;83(11):1632.
17. Evans JD, **Bramhall SR**, Neoptolemos JP, Eggo MC.  
Mechanisms of apoptosis in pancreatic cancer cell lines (abstract).  
**British Journal of Surgery** 1996;83(11):1631.
18. Evans JD, **Bramhall SR**, Stark A, Kinley H, Porter C, Osborne L, Daniel F, Carmichael J, Imrie C, Johnson CD, Neoptolemos JP.  
A phase II trial of marimastat (BB-2516) in advanced pancreatic cancer (abstract).  
**British Journal of Surgery** 1996;83(11):1652.
19. Evans J, **Bramhall S**, Carmichael J, Daniel F, Imrie C, Johnson C, Neoptolemos J, Stark A.  
A phase II trial of marimastat (BB-2516) in advanced pancreatic cancer (abstract).  
**Annals of Oncology** 1996;7(5):51.
20. Evans JD, **Bramhall SR**, Donovan IA, Neoptolemos JP, Eggo MC.  
Phorbol esters induce apoptosis in pancreatic cancer cell lines (abstract).  
**GUT** 1996;39(3):A251.
21. **Bramhall SR**, Williams D, Youngs D, Neoptolemos JP.  
Type IV collagenase expression is integral to MMP induced in-vitro invasion and is inhibited by BB2516 and BB94.  
**GUT** 1996;39(3):A257.
22. **Bramhall SR**, Williams D, Youngs D, Neoptolemos JP.  
Type IV collagenase expression is important in MMP induced in-vitro invasion and is inhibited by BB2516 and BB94.  
**International Journal of Pancreatology** 1997;21:196.
23. Evans JD, **Bramhall SR**, Donovan, IA, Neoptolemos JP, Eggo MC.  
Activation of protein kinase C induces apoptosis in SUI-2 and BxPC3 pancreatic cancer cell lines.  
**International Journal of Pancreatology** 1997;21:195.
24. Evans JD, **Bramhall SR**, Stark A, Kinley H, Porter C, Osborne L, Daniel F, Carmichael J, Imrie C, Johnson CD, Neoptolemos JP.  
A phase II trial of marimastat (BB-2516) in advanced pancreatic cancer.
