EDUCATION

1977 Exhibition and Music Exhibition

1977-82 Repton School, Derbyshire

UNIVERSITY

1983-89 Worcester College, Oxford. (Physiological Sciences)

1986-89 Oxford University, Clinical Medical School.

PROFESSIONAL QUALIFICATIONS

1986 BA

1989 BM BCh

1993 MRCGP

1996 MRCOG

2003 PhD (Imperial College, London University)

CURRENT POSITION

2003 - Consultant Obstetrician and Gynaecologist,
Subspecialist in Fetal and Maternal Medicine,
Centre for Women's Health, Royal Devon and Exeter NHS
Foundation Trust, Gladstone Rd, Devon, EX2 5DW
&

Senior Clinical Lecturer (Hon), Peninsula Medical School

CAREER SUMMARY

After qualifying in medicine at Oxford, my career path has taken me to Bristol, Norwich, Cambridge before moving to Queen Charlotte's under the guidance of Professor Nick Fisk. At QCCH, my research into monochorionic twins and also non-invasive fetal ECG resulted in my obtaining a PhD. I also completed subspecialty training at the Centre for Fetal Care before completing my general training.

I was appointed as a Consultant Obstetrician and Gynaecologist at the Royal Devon and Exeter Foundation NHS Trust in 2003. Whilst subspecialising in fetal medicine and having a busy obstetric practice with regular sessions on delivery suite, I have also been able to maintain and develop my gynaecology skills and have a specialist interest in urogynaecology.

I have an active medico-legal practice. My particular areas of expertise include general obstetrics, fetal medicine, multiple pregnancy including twin to twin transfusion syndrome, intrapartum care and general gynaecology.

KEY PUBLICATIONS

Doppler detection of arterio-arterial anastomoses in monochorionic twins: feasibility and clinical application.

Taylor MJO, Denbow ML, Tanawattanacharoen S, Gannon C, Cox PM, Fisk NM
Human Reproduction 2000, 15, 1632-1636

Fetal origins of reduced arterial distensibility in the donor twin in twin-twin transfusion syndrome.

Cheung YF, **Taylor MJO**, Fisk NM, Redington AN, Gardiner HM.
Lancet 2000, 355, 1157-8

Twin-twin transfusion syndrome: the influence of intrauterine laser -photocoagulation on arterial distensibility in childhood.

Gardiner HM, **Taylor MJO**, Karatza A, Vanderheyden T, Huber A, Greenwald SE, Fisk NM, Hecher K
Circulation 2003 107, 1906-1911

Non-invasive fetal ECG recording in singleton and multiple pregnancies.

Taylor MJO, Smith MJ, Cannon VA, Green AR, Wee L, Fisk NM, Gardiner HM
BJOG 2003, 110, 668-678

Management of twin-twin transfusion syndrome

A Chapter in: Blickstein & Keith (Eds):

Multiple pregnancy: Epidemiology, gestation and perinatal outcome.

pp 552-570

Taylor MJO, Fisk NM 2005

Non-invasive intrapartum fetal ECG: preliminary report

Taylor MJO, Thomas MJ, Smith MJ, Oseku-Afful S, Fisk NM, Green AR, Paterson-Brown S,
Gardiner HM

BJOG 2005, 112 (8), 1016-1021

The management of multiple pregnancy

Taylor MJO

Early Hum Dev. 2006, 82(6), 365-70
