Lowburn Hall Farm Cottages,
Darlington Road, Durham
DH1 3ST

07890 030366 (mobile), 0191 3781939 (work), Victoria.Jenkins@live.co.uk

Employment History:

Dates	Employers Name and Address	Brief Description of Duties
1993 – 1994	Glaxo Research and Development, Ware, Hertfordshire.	I worked in the Reproductive Toxicology Department for one year as a sandwich student. I was involved in drug trials for the treatment of pregnancy induced hypertension, which developed both my laboratory and report writing skills.
1995 – 1997	PPP Healthcare, Vale Road, Tunbridge Wells	As part of the Hospital Contracts Team, it was my responsibility to ensure that private hospitals were only invoicing for pharmaceuticals that were appropriate for the particular condition treated. The post required good working knowledge of pharmaceutical drugs, coupled with good oral and written communication skills.
1997 – 1999	Keith Borer Consultants, Mountjoy Research Centre, Durham	<p>I joined the consultancy as a trainee scientist in the field of Toxicology. I received training in the laboratory skills necessary for the post from two existing members of staff who between them had almost 70 years of forensic experience in the drug field.</p> <p>I underwent detailed training in vital laboratory skills, attended the Department of Forensic Medicine and Science in Glasgow to further my knowledge, and, to strengthen my expertise and attended additional courses in the written and oral presentation of forensic evidence.</p> <p>I was involved in numerous cases involving drugs and/or alcohol and gave evidence in magistrates and crown courts.</p>
1999 – 2002	Formedecon Ltd, Spennymoor,	In 1999 I joined Formedecon Ltd to head the Drug and Toxicology Department. I obtained

2002-2016	<p>Durham</p> <p>Victoria Jenkins Forensic Consultancy.</p>	<p>the additional qualifications of Chartered Biologist (CBiol) and Member of the Society of Biology (MSB). I continued to provide reports relating to drugs and alcohol and was also trained in the use of the Camic Datamaster and Lion Intoxilyzer 6000UK breath testing machines.</p> <p>I set up my own consultancy company in 2002 and continued to provide reports for the courts. I have given evidence in all levels of court, including at the Royal Courts of Justice in London and Jersey and the High Courts in Glasgow and have attended a case conference at the Old Bailey. I have also given evidence at Coroners' Inquests.</p> <p>In 2005 I became a Registered Forensic Practitioner in the field of Toxicology. I have acted as a Single Joint Expert in many cases and have also provided reports for insurance companies in relation to personal injury cases at home and at work and road traffic accidents.</p> <p>I have prepared several reports in medical negligence cases where prescription errors have occurred and have also been involved in drug testing issues in child custody cases and amongst prison inmates.</p>
