Ramsay Yorkshire Clinic

**David J Beard MBChB F.R.C.S.
Consultant Orthopaedic Surgeon**

Working as a busy consultant in trauma and elective orthopaedics in addition to initially running A&E department and more recently acting as lead clinician in audit has enabled me to acquire the necessary skills to provide expert medical opinion to the legal profession in cases of trauma, orthopaedics and negligence. This process has been strengthened by specific training in medico-legal practice. Defending my opinion in court when required has further reinforced my performance. In addition I continue to practise orthopaedic surgery funded by the NHS.
