QUALIFICATIONS & MEMBERSHIPS

Various technical training undertaken, including academic qualifications of a TEC Certificate in Telecommunications Engineering and TEC Higher Certificate in Communications Engineering. Member of relevant professional bodies, including the British Association for Human Identification (Forensic Imagery Analysis Group), and was listed with the National Police Improvement Agency as an Expert Advisor before it was disbanded.

WORK HISTORY

Independent Forensic Consultant
1997 – present

Extensive experience in audio, video and other imagery aspects of evidence in a broad range of cases, including abduction, armed robbery, burglary, drug supply, murder, sex offences, terrorism, theft, traffic offences and vehicle crime.

This includes high-profile cases, such as the attempted robbery of the Millennium Jewels at the London Millennium Dome in 2000 and the Securitas depot robbery in Tonbridge, Kent, which was the largest cash robbery in British history. Also conducted work for The Office of the Prosecutor of the Special Tribunal for Lebanon.

Produced thousands of expert reports for Prosecution and Defence in Criminal cases, and as a Single Joint Expert in Civil cases. Attended Courts nationwide (including Crown Courts, Magistrates' Courts, Youth Courts, The Royal Courts of Justice and Coroner's Court) on hundreds of occasions to advise Counsel and give Expert testimony. Praised for work on many occasions, including by Instructing Solicitors, Barristers, Police Officers and Judges.

Metropolitan Police
Civilian Technical Officer, last three years as Head of the Metropolitan Police Forensic Video Laboratory
1978 – 1997

Electronic, communications, audio and video engineering; Involvement in the Metropolitan-wide design of tape-recorded interview rooms and video recording suites for child witnesses; Sat on steering committees at Metropolitan and National levels; Contributed to the development of technical and evidential processes.
