Testimonials

We examine forensic evidence for many Solicitors, but in case you have not worked with us before, the following are quotes taken from some of the many emails/letters received from our Clients:

- *"We are most grateful for your prompt response and high level of professionalism that you always show in relation to instructions sent to you by this firm."*
- *"I am happy to inform you that the Prosecution offered no evidence in this case in light of the work that BioMark produced. Thank you again for your assistance in this matter and for your expert's speedy turnaround."*
- *"I wanted to thank you very much for all the assistance you have provided over the last couple of weeks. The ability to speak with your Expert was especially valuable and much appreciated. I have been much impressed by your helpfulness, knowledge and proactive approach and should a similar case come my way in future I won't hesitate to engage the services of your Company."*
- *"Counsel asked that I pass on to you, that in his experience your report is one of the most thorough and well laid out he has seen in a long time. Once again thank you for your report."*
- *"Mr. ***** was acquitted yesterday of both charges and is now a free man again. Thank you very much for your assistance at such short notice. The reports were incorporated into admissions that went to the jury and I am sure played a large part in securing the acquittal. I hope to work with you both again in the future."*
- *"Your report was very helpful to me. It assisted greatly in understanding the continuity and lack of evidence showing continuity. It allowed me to raise numerous issues with the Crown and then draw up admissions in relation to the fingerprints. The Prosecutor said he could not object to the admissions as he believes they went to the core of the case and highlighted the deficiencies in the Crown's case. The up-shot was the Crown offered no evidence. Thanks for your report. I dare say I shall be in touch in the future."*
- *"You were kind enough to prepare a report and subsequently give evidence on this matter. After a short deliberation the jury found Mr. ***** Not Guilty on all charges. On behalf of both ourselves and our client we would like to thank you for your valuable input in those proceedings."*
- *"Future cases? You bet. I am very happy with the way you have thrown your help in my direction so quickly. It is appreciated. And will not be forgotten."*
- *"The case was thrown out today!! Please thank your Expert for all of her help. The Judge was persuaded by the case law she had forwarded to us."*
- *"Thank you very much for your hard work and for turning around the report in such a short space of time. I am pleased to confirm that the case against our client was dismissed. We served your report on the Crown who I am sure felt their case weakened considerably from that point."*
