

IntaForensics are extremely proud of the extensive range and experiences nature of its experts. As our extensive teams experience ranges from commercial backgrounds to the Military, Police Hi-Tech Crime Units, and the Serious and Organised Crime Agency, we are well placed to assist with any type of investigation that may arise.

All Forensic Analysts are IT experts and are well qualified, e.g. Chartered IT Professionals by the British Computer Society, Microsoft Certified Engineers, MSc Computer Forensics, EnCase Trained, EnCase Certified Examiners, and Access Data Certified Examiners (ACE) amongst other IT qualifications.

View our senior experts below, or alternatively take a look at our Support Team to view who you will be dealing with as an IntaForensics customer.

Andrew Frowen - Chief Executive Officer

Years of Relevant Experience: 20 Years

Location: Nuneaton

Andrew is not only a Principal Expert in Computer Forensics and Cell Site/Telecommunications but the Founder and CEO of both IntaForensics (a Digital Forensic Science Provider) and Nationwide Forensic Services (a managed service provider) based in Warwickshire, both organisations provide services to both the public and private sectors. Andrew has over 20 years of IT experience and 11 years developing Forensic services, is responsible for strategic planning and service delivery, specialising in Forensic Case Management and standards within both organisations.

As a former Royal Green Jacket Infantry Telecommunications instructor, he became one of the first to be re-badged as a Royal Signals Systems Technician in 1995, responsible for the global installation and maintenance of Satellite Telecommunications and WAN/LAN Networks. After serving in the Army for 10 years, Andrew quickly furthered his career in telecommunications holding MCSE, A+, MCP and MCP+I. He became a Chartered IT professional, EnCE certified examiner and holds PgDip in Forensic Computing from Coventry University. Andrew was quickly recruited as Director of Forensics by CCL Forensics in 2004, when the company was formed, tasked with setting up their Digital Forensic Laboratory, recruitment, training and standardising their procedures and maximising growth capability. Having conducted hundreds of cases during Operation ORE. In 2006 Andrew set up IntaForensics Limited, a new company with his vision of service quality in mind specialising in Law Enforcement.

From maintaining the forensic IT infrastructure to acting consultant on a number of high profile cases, Andrew is a hands on strategic leader at IntaForensics. Andrew is responsible for strategic planning and service delivery specialising in Forensic Case Management and standards within both organisations.

With Andrew at the helm, customers are guaranteed a service from IntaForensics that is unmatched in the industry.

Damian Walton - Director of Professional Services

Years of Relevant Experience: 22 years

Location: Nuneaton

Damian is Director of Professional Services.

Damian joined IntaForensics from Visa Europe where he led the Data Compromise Management Team. He had responsibility for the overall management of data compromise incidents involving Visa payment card data, identification of emerging threats and the provision of quality intelligence. Damian worked closely with a number of Visa Europe and Visa Inc. teams, issuing and acquiring members and the PFI/QSA community to assist and support investigations into data breach attacks. He was responsible for creating and implementing strategies to ensure compliance with PCI DSS requirements and, where necessary, applying appropriate sanctions for breaches of Visa Europe's Operating Regulations. Damian is regularly invited to deliver keynote presentations at industry events.

Damian has over three decades of Law Enforcement experience, predominantly in investigative and supervisory roles. As head of Northamptonshire Police Hi-Tech Crime Unit he was a practitioner of forensic examinations, network investigations and covert internet investigations. He completed his Police career on secondment at the Child Exploitation and Online Protection Centre (CEOP) in London as head of the Specialist Operational Support Team, responsible for covert online and offline operations worldwide. During this secondment, Damian worked on a number of high-profile investigations in all all corners of the globe receiving a number of commendations and plaudits from government officials.

Damian holds a PgDip in Forensic Computing from Cranfield University and has also achieved EnCE certified examiner, CFIA and CSTA qualifications. He is a member of the British Computer Society.

Rick Yeomans – Forensic Services Manager

Location: Nuneaton

Rick is a Forensic Services Manager at IntaForensics' Nuneaton office. He has been professionally involved with computers since 1981, cutting his teeth on DEC PDP-11s in the British Army's Royal Corps of Signals as a Communications Technician. Ultimately specialising in information security systems and techniques he left the military in 2001 to take up a new calling in computer forensics with the private sector followed by 8 years as a High Tech Crime Investigator with Northamptonshire police. During his career in forensics Rick has been engaged in many cases for both prosecution and defence in criminal, civil and military matters, involving computers, mobile devices, cell site analysis and call data as well as a number of "odd" electronic devices.

Sarah Hargreaves - Forensic Services Manager

Years of Relevant Experience: 15 Years

Location: Warrington

Sarah is a unique commodity to the organisation, as Forensic Services Manager for IntaForensics' Warrington lab. Sarah has a second-to-none knowledge on advising clients whilst having a unique experience in conducting forensic investigations. As a previous technical director of her own UK based digital forensics organisation, you know the service provided is unique to the customer and of the highest standard.

Christine Hall - Forensic Services Manager

Years of Relevant Experience: 7 years

Location: Nuneaton

Don't let her years of experience fool you. Since joining us shortly after completion of her degree, Christine has shown continued competence in Forensic Computing and has grown to become the most recently appointed Forensic Services Manager. Even at her young age, Christine has vast experience in working within Hi-Tech Police Units, Fraud Investigation and with complex Defence Work, earning her quick progression within our ranks. Working with Christine you are guaranteed a uniquely knowledgeable service.

Ian Meek – Forensic Services

Years of Relevant Experience: 10 Years

Location: Leeds

Ian is the Forensic Services Manager for our Leeds laboratory. As a natural leader, Ian climbed the ranks holding the position of Lead Forensic Investigator at North Yorkshire Police. Comprehensive computer networking and technical skills with thorough and methodical investigative practices drives continuous improvements to efficiency and operational readiness with his team in Leeds.
