CURRICULUMVITAE

January 2026

Dr KANG Jin-Yong
14 St Matthew's Avenue
Surbiton
Surrey
KT66JJ

e-mailaddress:jykang@doctors.org.uk

Phone Number: 07925 556682

Present Appointments: Consultant Gastroenterologist

Previous Appointments:

Honorary Consultant Gastroenterologist
St George's Hospital
Blackshaw Road
London
SW170QT
2016 – 2022

Consultant Gastroenterologist and Honorary Senior Lecturer
St George's Hospital
Blackshaw Road
London SW17 0QT
1999 – 2016

Visiting Professor of Medicine
National University of Singapore
Kent Ridge
Republic of Singapore: 2012-2018

Areas of Expertise:

Luminal Gastroenterology including: benign and malignant oesophageal and gastric diseases, irritable bowel syndrome, inflammatory bowel disease, diverticular disease, coeliac disease, hepato-biliary conditions.

GMCRegistration No:1621389

Indemnity Insurer Provider:MDU 107995A

Degrees:

MBChB (Honours) Birmingham University-July 1973 MD
National University of Singapore - March 1990
Thesis title:'Peptic ulcer disease in Singapore,with particular reference to racial differences'
PhD National University of Singapore-October1996
Thesis title: 'Effects of chilli and capsaicin on the gastrointestinal tract of the rat'

Diplomas

MRCP (UK) June 1975
FRACP Jan 1980
FRCP Edinburgh July 1985
FRCP London April 1990

Prizes

Queen's Scholarship (prize for being top of the class)in Third year, Fifth year and Final year Exams. (only 3 exams in the medical course)
Subject Prizes: Pathology, Social Medicine, Medicine, Neurology, Paediatrics, Psychiatry, Paediatric Surgery.

Young Gastroenterologist of the year1978, awarded by the Gastroenterological Society of Australia

Examining and Supervising

1. MRCP PACES examiner 2003–2015
2. Supervisor for 5 MD candidates and1PhD candidate: all except one completed their degrees
3. Examiner for MD (doctorof Medicine)National University of Singapore
4. Examiner for PhD, Queen Mary College, University of London

Medico-legal Courses attended:

1. 17.9.19 Medico-legal Expert Witness Essentials Course
2. 20.6.18 Medico-legal Expert Witness Course
3. 9.9.15 Medico-legal Expert Witness Course
4. 20.6.18 Medico-legal Expert Witness Course
5. 17.9.19 Medico-legal Expert Witness Course
6. 21.2.21 Clinical Negligence Course

7. 10.12.21 Inspire Medilaw Annual Expert WitnessConference
8. 2.2.23 Specialist info: Medico-Legal Advanced course
9. 21.11.23 Advanced Expert Witness Reaccreditation Course
10. 28.10.24 Assurety Witness Training: single participant, 4 hours.
11. 7.11.25 Annual Bond Solon Expert Witness Conference

Research Interests:

Upper GI diseases especially peptic ulcer, gastro-oesophageal reflux disease and Barrett's oesophagus, irritable bowel syndrome, inflammatory bowel diseases, coeliac disease, colorectal cancer, epidemiology of gastrointestinal diseases

Summary

I have practiced Gastroenterology as Consultant Gastroenterologist since 1982 and have performed about 16,000 gastroscopies, about 4000 colonoscopies and about 1000 ERCPs. I have taught in training courses in gastroscopy and colonoscopy. I have researched on various gastroenterological topics and published more than 200 scientific papers in peer-reviewed journals.

I am now retired from my substantive NHS post and from private practice.

I am co-author of the current British guidelines (Gut 2014; 63: 7-42) on Barrett's oesophagus and have published other papers on the subject. I was co-Lead of the British Society of Gastroenterology National Registry for Eosinophilic Oesophagitis.

I was a member of Rome 4 for the Rome Foundation from 2014 - 2016. This is an international organization dedicated to the study of functional gastrointestinal diseases and which publishes guidelines for various conditions adopted throughout the world. Just over 100 experts were involved in the production of Rome 4 guidelines.

Medico-legal experience

I have undertaken medico-legal work since 2000 and clinical negligence reports since 2014. I presently undertake approximately 40 reports per year. I do not have a waiting list and my turnaround time is approximately 4 weeks.

My Claimant: defendant split is in the order of 80:15:5. I have prepared approximately 20 joint statements with experts representing the other side. I have attended trial approximately 10 times including once in the High Court in London.

Some examples of my work include:

1. 2000–a report for the Ministry of Health, Republic of Singapore, regarding a

new drug, Tegaserod

2. 2004-A report to a PCT regarding the care of a patient who died of diverticular disease of the colon

3. 2004-A report for an employer on an ex-employee with diverticular disease and irritable bowel syndrome, to be produced in an employment tribunal

4. 2007-A report as to whether diverticular disease contributed to the demise of a person with asbestosis

5. 2009-A report for an employee whose IBS symptoms became worse after an accident at work

6. 2011-A report for gastroenterological problems experienced after a car accident

7. 2011-A report for gastroenterological problems experienced after an industrial accident

8. 2013-A report on gastroenterological problems experienced after bowel resection following a road traffic accident

9. 2013-A report on an episode of food poisoning after consumption of outdated chocolate

10. 2014-A Clinical Negligence report on a patient whose diagnosis of gastro-oesophageal reflux was made after a long delay

11. 2014 –A Clinical Negligence report on a patient whose diagnosis of oesophageal cancer was delayed through alleged incorrect interpretation at gastroscopy

12. 2014-AClinical Negligence report on a patient whose medication for ulcerative colitis was wrongly dispensed with adverse effects

13. 2014-A Clinical Negligence report on a patient who developed a chest problem following surgery for gastro-oesophageal reflux, possibly a complication of the surgery

14. 2014-A report on a patient who suffered food poisoning after consumption of contaminated food

15. 2014-Defendant report for a Health Authority on a young lady who suffered cerebral palsy following a birth injury, but whose case is complicated by an oesophageal complication: Barrett's oesophagus.

16. 2015-A Clinical Negligence report on a patient with longstanding abdominal pain and was subsequently diagnosed to have a rare appendiceal tumour from which he succumbed.

17. 2015–a Clinical Negligence report regarding bowel perforation following a flexible sigmoidoscopy.

18. 2016-A Clinical Negligence reporton a lady who suffered bile duct injury following laparoscopic cholecystectomy

19. 2016-A Clinical Negligence report on a lady who developed acute colonic dilatation and perforation – alleged delayed recognition of the colonic dilatation

20. 2017-A Clinical Negligence report on a patient who sustained a throat injury following laryngoscopy and endoscopy

21. 2017 - A Clinical Negligence report on a patient who developed chest complications following surgery for gastro-oesophageal reflux disease

22. 2018–A report for the GMC regarding a Consultant Gastroenterologist alleged to be negligent

23. 2018–A report for the court on a person with chronic pancreatitis and the availability of his treatment.

24. 2018–apatientwhodevelopedabdominalsymptomsfollowingaroadtraffic accident

25. 2018–AClinicalNegligencereportonapatientwithoesophagealcarcinoma whose diagnosis was allegedly delayed.

26. 2018–A Clinical Negligence report on a patient with ampullary carcinoma whose diagnosis was allegedly delayed

27. 2018–A Clinical Negligence report on a patient with gallstones and common bile duct stones.

28. 2019–A Clinical Negligence report on a patient with oesophageal carcinoma whose diagnosis was allegedly delayed.

29. 2019–AClinicalNegligencereportonapatientwithapancreaticcystwhose diagnosis was allegedly delayed.

30. 2019–A patient who developed reflux symptoms following a road traffic accident.

31. 2019–A Clinical Negligence report on a patient who suffered oesophageal perforation during the performance of an ERCP.

32. 2019-20–A Clinical Negligence report on a report for a patient with complicated acute pancreatitis and gallstones.

33. 2020–A Clinical Negligence report on a patient with achalasia alleged to have been inappropriately treated

34. 2020 – Clinical Negligence reports on 6 patients whose diagnoses of oesophageal cancer,gastric cancer,colonic cancer, perforated gastric ulcer and inflammatory bowel diseases (2 patients) were allegedly delayed.

35. 2020–a patient with gastrointestinal problems after a road traffic accident, to assess causality

36. 2021–joint report-a patient admitted for gastrointestinal haemorrhage but succumbed to venous thrombo-embolism

37. 2021-a patient with exacerbation of inflammatory bowel disease purportedly through post-traumatic stress disorder

38. 2021–ClinicalNegligence report on a patient with achalasia who did not respond well to treatment

39. 2021–several patients with acute hepatitis A caused by contaminated dates

40. 2021–4 patients with gastrointestinal problems following road traffic accidents

41. 2022–2 patients with gastroenteritis unrelated to holidays

42. 2022–Clinical Negligence report on a patient who succumbed to aspiration pneumonia, to establish if her medications had contributed to dysphagia which in turn led to the aspiration

43. 2022–a patient with pill-induced oesophageal injury

44. 2022–Clinical Negligence report on a patient who sustained oesophageal perforation following endoscopy

45. 2022 – (for Defendant) Clinical Negligence report on a a patient who developed oesophageal carcinoma during a surveillance program for Barrett's oesophagus

46. 2022–assessment of gastro-intestinal symptoms following motor vehicle accident

47. 2022 – Clinical Negligence report on a patient with gastrointestinal haemorrhage allegedly through inappropriate use of gastro-toxic medications without gastro-protection

48. 2022–joint report for a patient with Crohn's Disease for a Family Court case.

49. 2023–a Claimant with intestinal problems,for an Employment Tribunal

50. 2023 – a Claimant with Crohn's disease with gluten sensitivity, whose condition deteriorated following a meal containing gluten

51. 2023–a Claimant who developed neurogenic dysphagia following a road traffic accident

52. 2023 - 24 – Clinical Negligence reports on nine Claimants whose diagnoses of gastric cancer (2, one of which was for the Defendant), colorectal cancer (2), Oesophageal cancer (1) small intestinal neuro-endocrinetumour (2), GIST tumour (1) and colonic diverticulitis (1) were allegedly delayed

53. 2023–Clinical Negligence report on a Claimant with giardiasis and hypokalaemia who subsequently developed cardiac arrest

54. 2023–a Claimant who developed gastro-oesophageal reflux following a road traffic accident

55. 2023–a claimant who suffered campylobacter food poisoning allegedly related to poor hygiene practices at an abattoir

56. 2016–2023- Multiple holiday sickness claims mainly from Claimants but also from Defendants.

57. 2024 – a Claimant who developed IBS following a road traffic accident

58. 2024 – A Claimant whose diagnosis of gastroparesis was purportedly delayed.

59. 2024 – A Claimant who suffered abdominal symptoms following purportedly negligent management of her endometriosis

60. 2024 – An athlete whose claim of blood loss through bleeding gastric ulcer was disputed by anti-doping agencies

61. 2024 – a patient with ulcerative colitis which became worse following a traumatic experience with close relatives dying from a house fire.

62. 2024 – a patient who expired following bleeding gastric erosions, the diagnosis of which was said delayed.

63. 2024 - a patient with inflammatory bowel disease whose management was

thought to be inappropriate.

64. 2024 – a Claimant with gastric ulcer purportedly caused by industrial exposure at work.

65. 2024 – a Claimant whose Crohn's disease was purportedly caused by exposure to mould.

66. 2024 – a Deceased person whose final illness, gastrointestinal haemorrhage was purportedly caused by prescribing errors.

67. 2024 – a Claimant whose functional dyspepsia was possibly related to stress

68. 2024 - a Claimant who expired after swallowing a foreign body

69. 2024 - a Claimant who suffered oesophageal perforation at endoscopy

70. 2025 – a patient who developed and passed away from oesophageal cancer while in hospital

71. 2025 – two Claimant who developed irritable bowel syndrome following a road traffic and an industrial accident

72. 2025 – a Claimant who developed an exacerbation of Crohn's disease following a road traffic accident

73. 2025 – a patient who passed away after his gastric GIST tumour was diagnosed late

74. 2025 – a Claimant who developed abdominal pain following laparoscopic cholecystectomy

75. 2025 – a Claimant with a late diagnosis of colorectal cancer on a background of ulcerative colitis

76. 2025 – a Claimant who perished from a bleeding duodenal ulcer

77. 2025 – two Claimants who developed a complicated Campylobacter infection

78. 2025 – three Claimants whose abdominal symptoms got worse following an industrial accident

79. 2025 – a Claimant with a late diagnosis of Crohn's disease

80. 2025 – a Claimant with complicated irritable bowel syndrome and possible small intestinal bacterial overgrowth

81. 2025 – 3 patients who contracted Cryptosporidiosis following contamination of the water supply

82. 2025 – a Claimant who developed Salmonella infection at work

83. 2025 – a Claimant whose colitis was purportedly sub-optimally managed

84. 2025 – a patient with achalasia who asphyxiated

85. 2025 – a patient with a late diagnosis of a small intestinal GIST tumour

86. 2025 – 18 patients with holiday illnesses (food poisoning)
