

CURRICULUM VITAE

STEPHEN DARIUS REJALI

Consultant ENT Surgeon and Otologist

BSc.

MB. ChB.

FRCS (CSiG)

FRCS (Oto)

FRCS (ORL-HNS)

2016

FULL NAME:	STEPHEN DARIUS REJALI		
ADDRESS FOR CONTACT:	University Hospital Clifford Bridge Road Coventry CV2 2DX		
TELEPHONE AND EMAIL:	Secretary (NHS): 02476 965057 Secretary (Private/Medico-legal): 02476 965057 Email: dariusrejali@hotmail.com		
DATE OF BIRTH:	12.12.67		
PLACE OF BIRTH:	BIRMINGHAM, UK		
MARITAL STATUS:	MARRIED		
NATIONALITY:	BRITISH		
GMC REGISTRATION NUMBER:	3659720		
DEFENSE ORGANISATION:	MDDUS	M149116	
QUALIFICATIONS:	BSc (hons)	Manchester	1989
	MB ChB	Manchester	1992
	Full GMC Registration 1 August		1993
	FRCS (CSiG)	England	1996
	FRCS (Oto)	England	1998
	FRCS (ORL-HNS)	England	2002
	CCST in Otolaryngology	19th May	2004
PRESENT POST:	Consultant Otolaryngologist, University Hospital Coventry and Warwickshire NHS Trust.		

DETAILS OF RELEVANT EMPLOYMENT:

PRESENT POST

Consultant Otolaryngologist

**UNIVERSITY HOSPITALS COVENTRY AND
WARWICKSHIRE NHS TRUST, COVENTRY.**

1.7.04-Present

PREVIOUS EMPLOYMENT

West of Scotland Otolaryngology Training

Specialist Registrar in Otolaryngology

SOUTHERN GENERAL HOSPITAL, GLASGOW

Mr. J Crowther, Mr. J Marshall

1.10.03 - 30.6.04

Specialist Registrar in Otolaryngology

GLASGOW ROYAL INFIRMARY, GLASGOW

Mr. I Swan, Mr. A Kishore, Mr. G McGarry

30.12.02 - 30.9.03

TWJ Otology Research Fellow

**KRESGE HEARING RESEARCH INSTITUTE, UNIVERSITY OF
MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN, USA.**

Dr. Y Raphael

27.5.02 - 22.12.03

Specialist Registrar in Otolaryngology

STOBHILL HOSPITAL, GLASGOW

Mr. B O'Reilly, Mr. B Irvine, Mr. D Simpson

1.10.01 - 9.5.02

Specialist Registrar in Otolaryngology

CROSSHOUSE HOSPITAL, KILMARNOCK

Miss M Shanks, Mr. R Singh, Mr. P Wardrop,

Mr. J Dempster,

1.10.00 - 30.9.01

Specialist Registrar in Otolaryngology

VICTORIA INFIRMARY, GLASGOW

Mr. J Crowther, Mr. J Marshall

1.10.99 - 30.9.00

Specialist Registrar in Otolaryngology

MONKLANDS HOSPITAL, AIRDRIE

Mr. A Johnston, Mr G Picozzi, Mr. N Balagi.

7.12.98 - 30.9.99

Locum approved for training Specialist Registrar in Otolaryngology

ROYAL PRESTON HOSPITAL

Mr. M Small, Mrs. Curley, Mr. J de Carpentier.

18.8.97 - 30.9.98

SHO Otolaryngology

**HOPE HOSPITAL and ROYAL MANCHESTER
CHILDREN'S HOSPITAL, SALFORD**

Mr. M P Rothera, Mr. D Willatt.

5.2.97 - 5.8.97

SHO GENERAL SURGERY

MANCHESTER ROYAL INFIRMARY

Mr. Hill, Mr. McCloy, Mr. MacLennon, Mr. Pearson.

7.8.96 - 4.2.97

SHO GENERAL SURGERY ROYAL OLDHAM HOSPITAL

Mr. Hulton, Mr. Williams, Mr. Flook.

7.2.96 - 6.8.96

SHO CARDIOTHORACIC / ITU

MANCHESTER ROYAL INFIRMARY

Mr. Keenan, Dr. Eddleston.

2.8.95 - 6.2.96

SHO ORTHOPAEDICS

MANCHESTER ROYAL INFIRMARY

Mr. Hirst, Mr. Maltby.

1.2.95 - 1.8.95

SHO ACCIDENT AND EMERGENCY

MANCHESTER ROYAL INFIRMARY

Mr. MacWay-Jones, Dr. Morton.

1.8.94 - 31.1.95

ANATOMY LECTURER / DEMONSTRATOR

GLASGOW UNIVERSITY

Supervisor Dr. J Shaw-Dunn.

1.9.93 - 30.6.94

HOUSE OFFICER

HOPE HOSPITAL, SALFORD

Prof. Turnberg, Dr. Shaffer

WITHINGTON HOSPITAL AND

CHRISTIE HOSPITAL, MANCHESTER

Mr. Tweedle, Mr. Schofield, Mrs. Brain

1.2.93 - 31.1.93

CLINICAL WORK:

Otology and Neuro-otology

I work at University Hospital Coventry and Warwickshire and George Elliot Hospitals. Otology (ear) and Neuro-otology is my chosen area of supra-specialist interest. I am the lead otologist (paediatric and adult) at University Hospital Coventry and George Elliot Hospital, Nuneaton. I have three outpatient and three operating sessions per week. I have established a specialist monthly vertigo clinic at University Hospital Coventry. I lead the combined paediatric audiology clinic at George Elliot Hospital and University Hospital Coventry. I undertake most middle ear and external ear surgery including tympanomastoid surgery and stapes surgery. I have carried out over 1100 major ear cases. A recent audit of my stapedectomy results were similar to international experts with 94% success. A myringoplasty audit revealed 90% success. Ossiculoplasty results were on par with national standards. I undertake the new Balloon Eustachian Tube Tuboplasty procedure. I am one of the few in UK carrying out this procedure. This work is part of a research article for publication. I undertake intratympanic therapy for otological conditions (vertigo, Meniere's disease patients). I am involved in assessment and management of patients with vertigo. I undertake combine paediatric ENT/audiology clinics with audiology and education. During my TWJ fellowship at Ann Arbor I had the opportunity to visit the Clinical Department of Otolaryngology at the University of Michigan. I visited the Causse Clinic, Beziers in autumn of 2005 (via TWJ foundation) Twice a year I organise a national Temporal Bone Dissection course.

Rhinology and Facial Plastics

I regularly undertake endoscopic sinus surgery in my present post. In my training I worked in specialist rhinological clinics (Mrs McGarry and Bingham). I have attended an advanced endoscopic sinus surgery course and the London Septal/Rhinoplasty course. I attended the 12th International Course in Modern Rhinoplasty Techniques in Amsterdam in 2005. I have trained in Botox, Dermal Filler and Chemical Peel therapy. I undertake Pinnaplsty in adult and children and excise cutaneous lesions from the pinna. I perform hair transplant surgery at a private clinic on a regular basis. Recently I have attended a lipolysis workshop and will provide this treatment via my private clinic.

Head and Neck

I undertake assessment of laryngeal and pharyngeal symptoms including endoscopy. I biopsy and remove small head and neck lumps, submandibular glands, branchial and thyroglossal cysts. During my training rotation I had extensive experience in elective major and minor head and neck procedures

including laryngectomy (partial, endoscopic and complete), neck dissection (radical and modified), parotid and thyroid surgery. Having worked in the Glasgow region, I have frequent experience in exploring penetrating neck injuries!

Paediatric Otolaryngology

I deal with a large paediatric work load. I deal with congenital and acquired hearing loss and perform tympanomastoid surgery on this group. I have a combined clinic with a community paediatrician and audiologist every two months at George Elliot Hospital and University Hospital Coventry. I have attended specialist paediatric otology/audiology clinic at Hospital for Sick Children, Glasgow and Royal Manchester Children's Hospital. My operative experience includes extensive general paediatric otolaryngological surgery at various hospitals in the West of Scotland and some specialist airway surgery at Royal Manchester Children Hospital and Booth Hall Children's Hospital.

General Surgery

The general surgery post at Manchester Royal Infirmary and the basic surgical training rotation in the same region provided experience in all aspects of upper and lower GI surgery, breast and hepatobiliary conditions. I managed critically ill patients including some in intensive care and cardiothoracic units.

MEDICOLEGAL EXPERIENCE:

I developed an interest in medico-legal matter since 2005. I have a supra-specialist interest in Otology and Neuro-otology. I regularly prepare medico-legal reports for suspected industrial noise damage and ear symptoms related to head/neck trauma including whiplash injuries. I have prepared over 250 medical reports since 2005. At present I am preparing approximately 25 reports per year. All of my work has been on behalf of claimants except for 3 single joint expert reports. My claimant/defendant ratio is therefore: 99% claimant /1% defendant.

I have not attended court as an expert witness. I have attended court once as a professional witness.

I have used my skills in computing to write a excel sheet to analyse patients hearing levels, compare these to the expected hearing and compute the statistical likelihood of pathological / industrial hearing loss.

I have also prepared a number of reports dealing with clinical negligence claims.

I organised a training course in Coventry in 2008 specifically dealing with medicolegal aspects of noise induced hearing loss.

I have attended one court case as an professional witness and spent time in the box.

I have attended the following medicolegal courses:

- | | | | |
|--|------------|----------|------|
| • In to court (Academy of experts) | London, UK | November | 2011 |
| • Medicolegal Expert Course | Leicester | June | 2010 |
| • Foundation Course (Academy of Experts) | London | December | 2007 |

TEACHING EXPERIENCE:

I am the lead clinician for undergraduate education in ENT. During most clinics and operating session I teach relevant skills to SPR's, F1, F2 and ST's. I lecture on cranial nerve anatomy and special senses at the medical school during the neuro-biology module. I have delivered lectures to medical, dental and speech therapist. I teach ST's, medical students and nursing staff. I have extensive small group teaching experience during my anatomy demonstrator job: mostly gross and clinical anatomy. I have taught First Aid to medical students and members of the public. I have attended a Teaching and Lecturing Skills Course in Glasgow.

I organise a national Temporal Bone Dissection course three times a year.

I am a member of the faculty for the Warwick Undergraduate Microsurgery Course.

MANAGEMENT EXPERIENCE:

I am the lead clinician a number of areas in the ENT department including: organising the weekly departmental continuing professional teaching sessions, undergraduate ENT teaching, paediatric and audiology issues, SHO supervision, induction and rota, choose and book and I am lead for the Warwickshire ENT Consultants Group. I am the lead clinician for Paediatric ENT and Otology. In the past I was the representative for otolaryngology specialist registrars in the West of Scotland. I have attended management courses organised by the University of Glasgow.

OTHER SKILLS:

Word processing (word), spreadsheet (excel), database (access), graphic design (photoshop), digital video editing, web design and computer networking.

POSITION OF RESPONSIBILITY:

Lead for Otology and neuro-otology at University Hospital Coventry.

Lead for Paediatrics in ENT at University Hospital Coventry.

Lead for undergraduate education in ENT at University Hospital Coventry.

I organise a national Temporal Bone Dissection course twice a year.

Faculty of Warwick Undergraduate Microsurgery Course.

COURSES ATTENDED AS FACULTY:

Warwick Undergraduate Microsurgery Course	Coventry	June	2012
Coventry Temporal Bone Course	Coventry	From 2011 on going	

COURSES ATTENDED:

BACO	Liverpool	July	2015
Sinus Surgery Course	Newcastle	March	2014
British Paediatric ENT Course	London	March	2014
Trans Nasal Oesophagoscopy Course	Derby	March	2013
Law and Procedure Course	London	May	2012
Chief Investigator Course (include GCP)	Coventry	January	2012
Effective Clinical Director	London	January	2012
Appraisal training	Coventry	December	2011
In to court (Academy of experts)	London, UK	November	2011
Otology Course	Bielefeld, Germany	December	2010
Procurement in the NHS	Manchester	September	2010
Medicolegal Expert Course	Leicester	June	2010
Live international otology network telecast	International	May	2010
Midland Institute of Otolaryngology	Yoxhall	May	2010
Level 2 Child Protection Training	Coventry	January	2010
TAIP (training and assessment course)	Birmingham	July	2008
Balance Course	Southampton	June	2008
Academy of Experts Course	London	December	2007
Surgical Assessment Tool Workshop	Stoke	November	2007
Middle Ear Course	Dortmund, Germany	April	2007
Lipolysis Course	Amsterdam, Holland	April	2007
Clinical Examiners Course	Coventry	December	2006
Dermal Filler Course	Bingham, UK	July	2006
Chemical Peel Course	Bingham, UK	July	2006
Facial Plastic Course	IHR, London	February	2006
Snoring and Obstructive Sleep Apnoea	London	November	2005
Causse Clinic TWJ Otology short fellowship	Beziers, France	October	2005
Rhinoplasty Course	Amsterdam	October	2004
Practical and Theoretical Course on BAHA	Kilmarnock	September	2003
Advanced Otology Course	London	September	2003
Bronchoscopy and Oesophagoscopy	Dundee	June	2003

Head and Neck Course	Birmingham	October	2001
Management Course	Glasgow	September	2001
Rhinoplasty and Septal Surgery Course	London	March	2001
ENT Radiology Course	Newcastle	February	2001
Endoscopic Sinus Surgery Course	Glasgow	September	2000
Temporal Bone Course	Glasgow	October	1999
Temporal Bone Course	Royal National Throat Nose and Ear Hospital	June	1998
Advanced Trauma Life Support	Manchester	March	1997
STEP Distance Learning Course	Correspondence Course	April	1996
North West Anastomosis Workshop	Manchester	November	1995
Advanced Life Support Course	Manchester	September	1995
Teaching and Lecturing Skills Course	Glasgow	June	1994
Radiation Protection Course Certificate	Manchester	July	1992

RESEARCH EXPERIENCE:

Present Research:

I am conducting research into the efficacy of Balloon Eustachian Tuboplasty (using the Bielefeld Catheter) for patient with Eustachian Tube symptoms. The work has been completed and a paper has been written. It will be submitted soon for publication.

TWJ Fellow 2002:

I designed and tested a coated cochlear implant electrode capable of secreting neurotrophic growth factors and thus preventing degeneration of the eighth nerve after acquired deafness. The work was carried out on an animal model at the Kresge Hearing Research Institute (KHRI), Ann Arbor Michigan, USA.

My work, carried out over a relatively short period (seven months) was productive. Dr Raphael (my supervisor) taught me various laboratory techniques including animal care and surgery (including cochlear implantation), cell culture, viral transduction, preparation and staining of cochlear tissues, cochlear electrode manufacture and computer image analysis. I regularly attended laboratory meetings where I was able to discuss my work and learn of other research in our laboratory. Within the KHRI I was able to attend exciting presentations from external visiting researchers.

During my stay I had the opportunity to visit the clinical Otolaryngology department. I attended outpatient department and observed surgery at the University of Michigan Hospital.

I have already presented some of my work at the Association for Research in Otolaryngology Feb 2003, Florida, USA, Royal Society of Medicine Otology section May 2003 (Exmoor Plastics Short Paper Prize Winner), Scottish Otolaryngology Society June 2003 and British Academic Conference in Otolaryngology July 2003, Birmingham, UK.

A paper based on my work has been published in the journal Hearing Research (see publications).

Other Clinical:

Randomised clinical trial on Ginkgo Biloba and Tinnitus and Meta-analysis of randomised trials. I designed this study and obtained ethical approval in two hospitals. I carried out the study in special research sessions where I interviewed, examined and audiological assessed patients. I statistically analysed the data. The results of the study have been presented at the Otolaryngology Research Society. I performed a meta-analysis of previous randomised trial on Ginkgo Biloba and

Tinnitus. A paper based on the research has been accepted for publication by the journal Clinical Otolaryngology.

Retrospective review of laser turbinectomy in children. This retrospective study involved case note review and patient interview. Part of the study involved histological study of turbinectomy specimens. A paper based on the study has been accepted for publication in the journal Lasers in Surgery and Medicine. The findings of the study were also presented at the Joint International Laser Conference in Edinburgh September 2003.

Retrospective review of Paediatric Cochlear Implantation in to Dysplastic Cochleae. This work has been presented at the Scottish Otolaryngology Society meeting.

Case reports. I have published several case reports on various otolaryngological conditions.

Undergraduate:

1991: Otolaryngology Clinical attachment. Retrospective review of Globus pharyngeus and its relationship to Pharyngeal Cancer.

1989: BSc. (Hons.) In Experimental Immunology and Oncology, University of Manchester.

The degree work involved part research and part formal structured teaching and was assessed by thesis and formal written examination. As a part of my work, I carried out skin grafting operations on nude rats using ether anaesthesia. The grafts were MHC Class 1 disparate. The effect of naïve CD4 and CD8 Thoracic Duct Lymphocytes, transferred to the above rats on rejection, was studied. In addition, work was carried out studying allogeneic lymphocyte cytotoxicity - rejection of transferred MHC disparate lymphocytes - in rats. My research findings were incorporated into a thesis and also contributed to a publication.
