Subject: RE: Request for Testimonial

Martine,

I feel terrible that you reached out in November last year for this and I'm only now getting round to replying. Please accept my deepest apologies.

I reached out to Dr. Sethi in April 2024 in relation to an ongoing investigation into the death of a young child. This investigation presented some difficult circumstances and, despite involving other expert witnesses, we needed an overarching report from an experienced paediatrician.

I was notified of Dr. Sethi after he was recommended to one of my colleagues following a similar investigation. It was a joy liaising with Dr. Sethi who was professional and attentive. He took time to listen to the investigation and was clear about what he may be able to assist with and set clear expectations and timelines for this. We received a report from Dr. Sethi in a timely fashion and were appreciative of the contents of the report.

This investigation is not over as yet but we are currently looking to presenting the case to the Crown Prosecution Service of which Dr. Sethi's report sits as a valuable piece of evidence in the case.

Many thanks to Dr. Sethi and his team.

DC 2592 Aaron Rowe
