Entitlement To Act As Medical Expert Witness

Here is a summary of my key experience and qualifications, which entitle me to provide evidence as an expert medical witness.

In April 2025 I received certification as an Expert Witness by completing the CUBS (Cardiff University Bond Solon) Civil Expert Witness scheme and I am a full Member of the Expert Witness Institute (MEWI).

I am a Consultant Ophthalmologist who can be instructed by Claimants and Defendants in clinical negligence (ophthalmology) and personal injury (non-surgical ocular trauma) cases. My Claimant : Defendant ratio is approximately 50 : 50 and I complete approximately 24 reports per year.

I am an experienced Consultant ophthalmic surgeon who has been on the GMC's specialty register since August 2014. I am currently a full-time substantive NHS Consultant at Somerset NHS Foundation Trust which I have held since July 2015, whilst also providing private healthcare at the Nuffield Health, Taunton Hospital for this period.

I completed my university degrees (Anatomical Science in 2002 and Bachelor of Medicine & Surgery in 2005) and post-graduate medical training (Royal College of Ophthalmologists Fellowship in 2012) to Consultant level in the UK. I then completed an additional year of extended training as a retinal fellowship with the University of Toronto, Canada in 2015.

In the past decade as a Consultant ophthalmic surgeon (for the NHS and private healthcare), I have gained extensive experience in ophthalmology, and in particular sub-speciality fields relating to cataract surgery, lens surgery, medical retina, surgical retina, trauma and on-call emergency eye care conditions. I continue to hold permanent NHS consultant contract and I am clinically active with NHS and private clinic and theatre sessions running every week.

I have received several international and national research awards and published over 35 peer reviewed articles and 4 textbooks. Since April 2019, I have acted as an invited member of the Royal College of Ophthalmologist's national research panel (the British Ophthalmic Surveillance Unit, BOSU).

Since 2016 I have acted as a Royal College educational and clinical supervisor and received several training awards.

With respect to leadership positions, I was the county clinical lead for the Somerset Diabetic Eye Screening Programme from 2017 to 2021. I was the Trust's digital clinical lead for Ophthalmology from 2016 to 2022 and the Consultant Clinical Service Lead for Ophthalmology from 2023 to 2026. As the Clinical Service Lead I was involved in managing clinical patient pathways for all sub-specialties for both elective and emergency cases.

Personal Details & Current Employer

Name	Jonathan Clive Park		
Date of Birth	16 th May 1981		
Nationality	British		
Professional Address	Musgrove Park Hospital, Taunton, Somerset NHS Foundation Trust, TA1 5DA		
Telephone	07364 213 246	(Nuffield Secretary)	
	01823 342 944	(NHS Secretary)	
Email	jonathan.park@somersetft.nhs.uk		
Current Post / Employer	Consultant Ophthalmic Surgeon Musgrove Park Hospital, Taunton,		

Professional Registration Details

GMC Number	6120294
GMC Registration	Full, with licence to practise.

CCT (Certificate of Completion of Training) awarded by GMC and registered on **GMC Specialist Register (Ophthalmology)** on 20th August 2014.

Qualifications

CUBS Expert Witness Certificate (Cardiff University Bond Solon)	April 2025
Vitreo-Retinal Surgery Fellowship Certificate University of Toronto, Canada	June 2015
CCT (Certificate of Completion of Training), GMC	20 th Aug 2014
Fellow of the Royal College of Ophthalmologists (FRCOphth)	April 2012
Degrees Medicine (MB ChB) – Honours University of Bristol, UK	June 2005
Intercalated in Anatomical Sciences 1 st Class BSc (Honours), University of Bristol, UK	July 2002
A-level 3A Exeter School, UK	1999
GCSE 8A*, 2A Exeter School, UK	1997

Employment

Current Consultant Post

Consultant Ophthalmic Surgeon specialising in Surgical and Medical Retina at Musgrove Park Hospital, Taunton, Somerset NHS Foundation Trust, TA1 5DA, UK.

From 20th July 2015 to date. This is a full-time permanent consultant NHS post.

Consultant Ophthalmic Surgeon at Nuffield Health, Taunton Hospital, UK.

From October 2015 to date.

Retinal Fellowships

1) University of Toronto: Toronto Western Hospital, Sunnybrook Health Sciences Centre and Hospital for Sick Children, Canada July 2014 – July 2014

2) Royal Devon & Exeter NHS Foundation Trust, UK Aug 2013 – June 2014

Ophthalmic Specialist Trainee in the Southwest Peninsula Deanery, including:

ST1:	Royal Devon & Exeter Foundation Trust	Aug 2007 – Aug 2008
ST2:	Royal Cornwall Hospital	Aug 2008 – Aug 2009
ST3:	South Devon Foundation Hospital Trust	Aug 2009 – Aug 2010
ST4:	Plymouth Royal Eye Infirmary	Aug 2010 – Aug 2011
ST5:	Taunton Musgrove Park Hospital	Aug 2011 – Aug 2012
ST6:	Plymouth Royal Eye Infirmary	Aug 2012 – Aug 2013
ST7:	Royal Devon & Exeter Foundation Trust	Aug 2013 – June 2014

Foundation Doctor (F1, F2)

North Bristol NHS Trust (Frenchay & Southmead Hospitals) Aug 2005 – Aug 2007

Rotation included work in Neurosurgery, General Surgery, General Medicine, General Practice, Care of the Elderly, Respiratory and Cardiology.

Memberships

Fellow of the Royal College of Ophthalmologists, UK, since 2012.

Fully registered with license to practice (and on specialist register) with the General Medical Council.

Indemnity membership with the Association Of Ophthalmologists Specialist Indemnity Scheme, AOOSIS.

Member of British and Eire Association of Vitreo-Retinal Surgeons, BEAVRS.

Current Consultant Practice & Retinal Fellowship

Current Consultant Practice

Since 20th July 2015, I have worked as a Consultant Ophthalmic Surgeon specialising in Surgical and Medical Retina at Musgrove Park Hospital, Taunton, Somerset NHS Foundation Trust. This is the largest acute hospital in the county (Somerset) serving a population of 350,000 and for retinal specialist services 544,000. From January 2023 to February 2026, I acted as the Clinical Service Lead for ophthalmology at Musgrove Park Hospital.

From 2016 to 2022, I was the digital lead for Ophthalmology and member of the Trust's digital steering committee. From 2017 to 2021 I was the county clinical lead for diabetic retinopathy screening (for the Somerset Diabetic Screening Programme, SDESP). From 2023 to 2026 I was the Clinical Service Lead for the Ophthalmology department at Musgrove Park Hospital. Since 2019, I have acted as an invited member of the Royal College of Ophthalmologist's national research panel (British Ophthalmic Surveillance Unit, BOSU). I have received national and international research awards.

I provide retinal surgery for a wide range of retinal problems including retinal detachment, macular hole, epi-retinal membranes and complications from diabetes. I offer medical care for a variety of eye diseases including macular degeneration, retinal vein occlusion and complications from diabetes. I also perform complex cataract surgery and surgery for eye trauma. I contribute my surgical retinal outcomes to the national ophthalmology dataset via the British and Eire Association of Vitreo-Retinal Surgeons (BEAVRS) and my outcomes are favourable relative to national standards. My cataract surgery audit demonstrates my outcomes are favourable relative to the Royal College of Ophthalmologists' standards.

I am dedicated to training, and I act as both a Clinical and Educational Supervisor. I have previously received the "Best Trainer Award" by trainees in the Peninsula Deanery and been nominated as "Surgical Supervisor" and "Consultant Hero". I was a co-founder of the Southwest Ophthalmic Research and Development group that utilised virtual reality surgical simulators to train our future eye surgeons.

Retinal Fellowship (Vitreo-Retinal Surgery & Medical Retina)

Following my Certificate of Completion of Training in Ophthalmology, from July 2014 to July 2015 I completed my retinal fellowship in Toronto, Canada. This is a highly competitive and internationally respected fellowship, which provides extensive experience with both surgical and medical retinal diseases. The fellowship has been established for more than a decade, and the retinal unit is the largest in North America and Canada and provides retinal care for the Greater Toronto Area (over 5 million people). Retinal fellows therefore gain extensive medical and surgical retinal training, since the unit manages the highest volumes of retinal pathology in North America and Canada.

I was awarded the Global Ophthalmology Awards Program (GOAP) prize from Bayer for my clinical and research work that I completed during my retinal fellowship in Toronto. I acted as the Chief Investigator for an international research project investigating genetic risk factors for sight threatening post-operative eye infections. This study involved hospitals from across the UK, the Netherlands and Canada and was also awarded funds from the UK National Eye Research Centre.

Awards

Surgical Supervisor of the year (nomination), Peninsula Deanery	2025 & 2021
Consultant Hero of the year (nomination), Peninsula Deanery	2021
Musgrove Educational Supervisor of the year, nomination	2020
Musgrove Clinical Supervisor of the year, nomination	2020
Best Trainer Award of the Deanery, Peninsula Deanery	2019
Clinical Excellence Awards	2017, 2019, 2021
Global Ophthalmology Awards Program (GOAP) from Bayer for retinal fellowship and genetic profiling in endophthalmitis research project, \$35,295	2014
National Eye Research Centre (NERC) Research Project Funding, £15,600 (Relating to genetic profiling and endophthalmitis)	2014
Southwest Ophthalmology Society (SWOS), Research Travel Prize, £1,000 To fund travel to present at Association for Research in Vision and Ophthalmology, Florida (Relating to endophthalmitis following vitrectomy research)	2013
EUCORNEA, Amsterdam. Best Research Paper in Session Award (Relating to endothelial keratoplasty research)	2013
Southwest Ophthalmology Society (SWOS) Best Research Paper Award, £500 (Relating to virtual reality simulator research)	2013
Royal College of Ophthalmologists Fight for Sight Award, £6,000 From the British Eye Research Foundation (Relating to endophthalmitis following vitrectomy research)	2010
Research Project Award, West of England Eye Unit, £5,000 (Relating to endophthalmitis following vitrectomy research)	2010
Research Project Award, Wirral Teaching Hospital, £5,000 (Relating to endophthalmitis following vitrectomy research)	2010
Award from MSD to Simulator Research Group, £2,000	2010
Torbay Bursary Trust Fund Prize For Simulator Project	2010
Honours for Medical Degree MB ChB <ul style="list-style-type: none"> 8 Distinctions, 3 Merits and 1 Pass from the 12 blocks of the course 	2005
Sir John Ellis National Prize, Association for the Study of Medical Education	2005
Three Awards for medical elective at Lions Eye Care Centre, Barbados	2004
National Prize from British Geriatric Society (Amulree Prize)	2004

Best Research Paper Award (British Orthopaedic Research Society)	2004
1 st Class Honours for Anatomical BSc	2002
Anatomical Sciences BSc Prizes	2002
<ul style="list-style-type: none"> • Mary Edith Evans Prize for highest BSc grade • Dorothy Fielding Prize for best research project 	

Research & Presentation Experience

I have extensive research experience and have acted as the chief investigator for international and national studies. I have received several international and national research awards and published over 35 peer reviewed articles and 4 textbooks.

I have peer reviewed journal submission work, including providing a peer review for a systematic review of retinal detachment for the BMJ Clinical Evidence journal in 2014.

Since April 2019, I have acted as an invited member of the Royal College of Ophthalmologist's national research panel (the British Ophthalmic Surveillance Unit, BOSU). In 2016 I was invited to act as a judge of research posters at the Royal College of Ophthalmologists Annual Congress, 2016.

<u>Peer Reviewed Publications</u>	Total	39
	First author	21
<u>Textbooks</u>	6 (4 books, 2 invited chapters)	
<u>Eye News Columns</u>	33	
<u>Presentations & Posters</u>	Total	77
	Primary Presenter	40
	International (as primary presenter)	4
	National (as primary presenter)	15 (6 invited)

Please see, **Awards** (page 7) and **Appendix** (page 11) for full details.

Management & Leadership

1) Clinical Service Lead for Ophthalmology, Musgrove, Jan 2023 to Feb 2026.

As the clinical lead of a 13-consultant department, I was responsible for co-ordinating the department's clinical progress to ensure the rising demands of healthcare for the patients in Somerset is met.

2) Invited Member Of Royal College Of Ophthalmologists' Research Panel, British Ophthalmological Surveillance Unit (BOSU), 2019 to date.

I am a member of this College panel, which meets four times per year to decide which proposed national studies should be supported by the College.

3) Acute Referral Clinic (Eye Casualty) Lead – September 2025 to date.

4) Digital Departmental Clinical Lead and Member of Trust Digital Steering Committee, 2015 to 2024

The Trust aims to be “paper-light” by 2020, and to help achieve this goal I have acted as the digital lead for our Ophthalmic department and been a member of the Trust digital Steering Committee. This has included helping to implement an electronic patient administration system (PAS – MAXIMS and EPRO) and to now implement a clinical electronic document management (EDM) system. This has included obtaining over £200K of funding to implement Medisoft / Medisight – which is a bespoke Ophthalmic EPR (electronic patient record) system allowing improved efficiency and audit data collection for the department.

5) Clinical lead for Somerset Diabetic Eye Screening Programme, 2017 to 2020.

I was clinically responsible for the systems in place to manage the screening and referral of patients in Somerset with diabetic retinopathy. This involved monthly team meetings and review of audit standards relative to national guidelines. It also included daily communications relating to fail-safe measures to safeguard individual patients.

6) Co-Founding Member and Chairman of SWORD, 2008 to 2017

I took an active role in the management of the South West Ophthalmic Research and Development group (SWORD) for which I was a Co-Founder and Chairman. This involved the running of the annual Basic Eye Surgery Training (BEST) courses (a paid course that generates revenue), training colleagues using the virtual reality simulator, co-ordinating research and presentations (several publications, presented internationally, nationally and by invitation regionally). This also involved advertising and securing commercial sponsorships.

7) South West Peninsula Ophthalmic Specialist Trainee Representative, 2008 to 2014

For six years I acted as one of the Ophthalmic Specialist Trainee's representatives for the South West Peninsula Deanery. The involved representing my peers at regional Deanery meetings and ensuring regular good communication between my peers and those involved in co-ordinating training and contracts in the South West Peninsula and Severn Deaneries.

8) Severn Deanery Foundation Doctor Representative, 2006 to 2007

This post involved the representation of over 300 foundation doctors at a time where great changes were afoot given the Modernising Medical Careers drive.

9) Head Boy at Exeter School, 1999

Teaching & Training

My strong interest in medical education grew after I completed a research project relating to the value of student work experience. This was published in the *British Journal of General Practice* and won a national prize from the Association of the Study of Medicine.

I have since received formal training in providing lectures, practical workshop teaching and chairing educational discussions by completing the Generic Instructor Course (run by the Resuscitation Council, UK). I subsequently have helped train other professionals learning to instruct on this course, acting as an instructor on the Generic Instructor Course (2009 to 2011). This was a certified training post, which allowed me to provide formal training in lecturing, practical workshops and other educational techniques.

I have previously lectured as an Associate Lecturer at the University of Plymouth, where I provided lectures to undergraduate Optometrists on how systemic disease affects the eye and helped structure their examinations.

Currently I provide formal training for medical students by giving structured tutorials with feedback on both surgical retina (retinal detachment) and medical retina (macular degeneration) approximately four times per year. I provide regular tutorials for our local trainees and approximately two lectures per year at the annual deanery retinal day for all trainees in the deanery.

I act as an educational supervisor for the Royal College (2016 to date) for one trainee and a clinical supervisor for two trainees (2016 to date).

I also provide virtual reality and microsurgical training for people interested in a career in ophthalmology at the Basic Eye Surgery Training course, Torbay, 2008 to date (annually).

For practitioners in the community, I provide an annual update for GP's and an annual update for optometrists (as an invited guest speaker at the Somerset local optometrist committee, LOC, annual general meeting).

In 2019, I received the "Best Trainer Award" in the Deanery, as voted for by the registrars.

In 2020, I was nominated for the "Best Educational Supervisor" and the "Best Clinical Supervisor" at Musgrove Park Hospital.

In 2021, I was nominated for the "Best Surgical Supervisor" (also in 2025) and the "Consultant Hero" award in the Deanery, as voted for by the registrars.

Referees

These are available on request and can be provided from fellow Consultants or senior managers at Musgrove Park Hospital, Taunton. I can also provide references if required from the Somerset Diabetic Eye Screening Programme, or, Toronto Western Hospital (University of Toronto), Canada, or, from any of the previous hospitals that I have worked at listed in my employment history.

Text Books

1. **Refraction And Retinoscopy: How To Pass The Refraction Certificate. Second Edition. Park JC,** Jones DH, Feinberg. ISBN: 9781032359120. Published by Taylor & Francis, November 2023. A second edition now available in paperback, hard back and digital formats. A concise and comprehensive guide to refraction and retinoscopy that is tailored to fit the new Royal College of Ophthalmologists curriculum and included in their study guide.
2. **The Essential Guide To The UKMLA. Cambridge University Press, 2021.** Textbook for UK Medical Licensing Assessment (UKMLA), invited chapter (Gradual Loss Of Vision), accepted for publication July 2021.
3. **Fundamentals Of Intravitreal Injections: A Guide For Ophthalmic Nurse Practitioners And Allied Health Professionals.** Waqar S, **Park JC.** ISBN: 978-981-3239-78-4. Published by World Scientific Publishing Company, May 2018. This internationally published hard back book builds on our previous intra-vitreous publication (see below).
4. **Refraction And Retinoscopy: How To Pass The Refraction Certificate. Park JC** and Jones DH. ISBN: 9781908911919. Published by Radcliffe, February 2013. A concise and comprehensive guide to refraction and retinoscopy that is tailored to fit the new Royal College of Ophthalmologists curriculum. It is included in the College's study guide.
5. **Intravitreal Injections: A Handbook For Nurse Practitioners And Trainee Ophthalmologists.** Waqar S, **Park JC,** Cole M. ISBN: 978-981-4571-45-6 (book) and 978-981-4571-47-0 (eBook). Published by World Scientific Publishing Company, March 2014. We helped to pioneer the provision of intravitreal injections by nurse practitioners and provided a competency framework to allow this in several trusts. We have subsequently expanded this to an international book publication.
6. **Progression To Medicine, Dentistry And Optometry: Right Course? Right Career? Park JC.** ISBN: 1843611406. A UCAS (University and College Admissions Service) publication, 2013. An invited chapter reflecting on Ophthalmology as a career.

Other Publications

1. **Running a Surveillance Project, College News, Royal College of Ophthalmologists, Autumn 2013.** A reflective account reporting on the experience and benefits of being awarded a British Ophthalmic Surveillance Unit (BOSU) research bursary and being the chief investigator for a nationwide project investigating endophthalmitis following vitrectomy surgery.
2. **NHS Choices Patient Information Leaflet** for eyelid problems, first edition 2011 and second edition 2013. I acted as the medical representative with lay colleagues to write the patient information leaflet relating to eyelid problems (available from the main NHS website for members of the public www.nhs.uk).
3. **South West Ophthalmic Research and Development (SWORD)** group website contributor (www.myeyesurgery.org.uk). I was a Co-Founder of SWORD and I'm currently the Chairman. This includes my voice as the surgeon on the interactive animation for patients to improve their cataract surgery experience, and was presented at the Royal College of Ophthalmologists annual congress, May 2012.

Presentations & Posters

1. Monla-Haidar H, Spackman W, El-Khayat A, **Park JC**, Doyle E, Herbert EN. The impact of adding recent macula-off retinal detachments to regional weekend vitreo-retinal service. Presented at the British and Eire Association of Vitreo-Retinal Surgeons (BEAVRS) annual general meeting, November 2023.
2. Swampillai AJ, Maubon L, Nowak V, Sahota D, Abdel-Hay A, **Park JC**. Confidence of UK ophthalmic trainees in managing posterior capsule rupture: results from a national Trainee Clinical Research Network survey. Presentation at UK and Ireland Society of Cataract & Refractive Surgery (UKISCRS) Annual Meeting, UK, November 2021.
3. Steel DH, **Park JC**. The surveillance of rare vitreo-retinal conditions – insights into rare but important, occasionally devastating conditions. Presentation at Royal College of Ophthalmologists Annual Congress, May 2021.
4. Kaneshayogan H, Swampillai A, Liu Z, Haywood J, **Park J**, Herbert E, Sian I. Quantification of droplet aerosol generation during cataract and pars plana vitrectomy. Poster at Royal College of Ophthalmologists Annual Congress, May 2021.
5. Kaneshayogan H, Swampillai A, Liu Z, Haywood J, **Park J**, Herbert E, Sian I. Quantification of droplet aerosol generation during cataract and pars plana vitrectomy. European Cataract & Refractive Surgery (ESCRS) Winter Meeting, February 2021.
6. **Park JC**. An update on the endophthalmitis defensin study and host risk factors. Northern Deanery Invited Guest Speaker, Sunderland, December 2020.
7. Sermeus L, Merugumala SV, **Park JC**, Gudsoorkar S, Herbert E, Pierce C. Quality standards in virtual retinal imaging clinics. E-Poster at EURETINA, Amsterdam October 2020.
8. Merugumala SV, Sermeus L, Herbert E, Gudsoorkar S, **Park JC**, Pierce C. Virtual retinal imaging clinics: patient satisfaction and throughput in South West England. E-Poster at EURETINA, Amsterdam October 2020.
9. Sherman T, **Park JC**. Removal of capsular tension ring using an empty capsular tension ring injector, via a corneal incision. Surgical video presentation at European Cataract & Refractive Surgery (ESCRS), 38th Congress, Amsterdam, October 2020.
10. Swampillai AJ, Maubon L, Nowak V, Sahota D, Abdel-Hay A, **Park JC**. Confidence of UK ophthalmic trainees in managing posterior capsule rupture: results from a national Trainee Clinical Research Network survey. Poster at Royal College of Ophthalmologists Annual Congress, Birmingham, May 2020.
11. Swampillai AJ, **Park JC**. Reverse Hara-Kiri phaco-emulsification for traumatic cataract and intra-lenticular foreign body. UK and Ireland Society of Cataract & Refractive Surgery (UKISCRS) Annual Meeting, Hinckley, UK, October 2019.
12. **Park JC**. Bilateral retinal detachment and a technique for effective removal of a dislocated capsular tension ring. West of England Association of Vitreo-Retinal Surgeons (WEAVRS) Annual Meeting, Taunton, 2019.
13. Healy R, **Park JC**, Gudsoorkar S, Herbert EN. Patient satisfaction and throughput in virtual macular clinics: analysis of the impact of “virtual macular clinics” on patient satisfaction and appointment efficiency. EURETINA Winter Meeting, March 2019, Prague, Czech Republic.
14. **Park JC**. Making sense of it all – clinical interpretation of OCT retinal imaging. Invited Keynote lecture at Topcon’s National OCT Conference, Bristol, November 2018.
15. Hülle J, **Park JC**. Removal of Soemmering ring. Video presented in Florence, Italy, European Vitreo-Retinal Society (EVRs), Sept 2017.
16. **Park JC**. British Ophthalmic Surveillance Unit: Personal Perspective. Invited national presentation, Royal College of Ophthalmologists Annual Congress, Birmingham, May 2016.
17. Williams O, Modi N, Swampillai A, Waqar S, **Park JC**, Kersey T, Sleep T. Learning styles and the prospective ophthalmologist. Royal College of Ophthalmologists Annual Congress, Birmingham, May 2016.
18. **Park JC**, Lam WC, Devenyi R, Kertes P. Is a specific defensin gene profile associated with endophthalmitis following a range of ocular procedures? Canadian Ophthalmology Society (National annual meeting), Victoria BC, Canada, June 2015.

19. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Endophthalmitis following vitrectomy. Association for Research and Vision in Ophthalmology (ARVO), Florida, USA May 2014.
20. **Park JC**, Lee C, Haynes RJ, Churchill AJ. Is a specific defensin gene profile independently associated with endophthalmitis following a variety of ocular procedures? National meeting of British and Eire Association of Vitreo Retinal Surgeons (BEAVRS), Bristol, Nov 2013.
21. **Park JC**, Simcock PR, Kingett B, Mann N, Reddy V. A safety audit of the first 10,000 intravitreal ranibizumab injections performed by nurse practitioners. National meeting of British and Eire Association of Vitreo Retinal Surgeons (BEAVRS), Bristol, Nov 2013.
22. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Endophthalmitis following vitrectomy: a summary of a prospective and nationwide study. South West Ophthalmic Society Annual Meeting, Bristol, Nov 2013.
Awarded **Research Travel Prize (£1,000)** to present at ARVO, Florida in May 2014.
23. **Park JC**, Simcock PR, Kingett B, Mann N, Reddy V. A safety audit of the first 10,000 intravitreal ranibizumab injections performed by nurse practitioners. South West Ophthalmic Society Annual Meeting, Bristol, Nov 2013.
24. **Park JC**, Habib N. Electron microscope analysis of an opacified intraocular lens implant following endothelial keratoplasty. EuCornea Congress, Amsterdam, October, 2013.
Awarded **Best Research Project In Session Prize**.
25. **Park JC**, Habib N. Opacification of intraocular lens implants following endothelial keratoplasty. Royal College of Ophthalmologists Annual Congress, Liverpool, May 2013.
26. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Final report on endophthalmitis following vitrectomy: a prospective and nationwide study. Royal College of Ophthalmologists Annual Congress (both on the Retina Day as an **invited faculty member** and as a Rapid Fire Presentation at the main Congress), Liverpool, May 2013.
27. **Park JC**, Williams O, Waqar S, Modi N, Kersey T, Sleep T. Can we operate with our non-dominant hand? South West Ophthalmic Society (SWOS), Bristol, January 2013. Awarded **Best Research Paper Prize (£500)**.
28. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Final report on endophthalmitis following vitrectomy. National meeting of British and Eire Association of Vitreo Retinal Surgeons (BEAVRS), Dublin, Nov 2012.
29. **Park JC**, Habib NE. The last grand round at the Plymouth Royal Eye Infirmary. South West Peninsula Deanery Grand Round, Plymouth, Nov 2012.
30. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Endophthalmitis following vitrectomy: a prospective and nationwide study. Royal College of Ophthalmologists Annual Congress, Liverpool, May 2012.
31. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Endophthalmitis following vitrectomy. National meeting of British and Eire Association of Vitreo Retinal Surgeons (BEAVRS), Canterbury Nov 2011.
32. **Park JC**. Endophthalmitis following vitrectomy – a historical context and concerns of today. South West Ophthalmic Society Annual Meeting, Torquay, June 2011.
33. **Park JC**, Vahdani K, Raman V. Spontaneous closure of a re-opened macular hole. West of England Association of Vitreo-Retinal Society (WEAVRS) Annual Meeting, Taunton, June 2011.
34. **Park JC**, Ramasamy B, Ling RHL, Prasad S. An update on the Endophthalmitis Following Vitrectomy study, in association with the British Ophthalmic Surveillance Unit. Royal College of Ophthalmologists Annual Congress (Retina Day), Birmingham, May 2011.
35. Waqar S, **Park JC (co-first author)**, Kersey T, Modi N, Ong C, Sleep T. The effect of fatigue and distraction on cataract surgery performance: analysis using a virtual reality simulator. International meeting of the European Society of Cataract & Refractive Surgery, Istanbul, February 2011.
36. **Park JC**, Paragati M, Williams Y, Vahdani K, Freegard TJ. Paediatric strabismus surgery audit. Plymouth Royal Eye Infirmary, January 2011.
37. **Park JC**, Ramasamy B, Ling RHL, Prasad S. Endophthalmitis Following Vitrectomy. National Meeting of British and Eire Association of Vitreo Retinal Surgeons (BEAVRS), Newport, Wales, Nov 2010.

Acknowledgements For Publications

Since July 2015 I have submitted all my operative details outcomes for retinal detachment and retinal macular hole to the **BEAVRS dataset** (British and Eire Association of Vitreo-Retinal Surgeons). This collectively has created the largest prospective dataset for retinal surgery in the world, and such collaboration has helped with the following publications for which I am acknowledged:

- 1) Haynes RJ, Yorston D, Laidlaw DA, Keller J, Steel DH. Real world outcomes of ocriplasmin use by members of the **British and Eire Association of Vitreo-retinal surgeons**. *Eye* 2017; 31(1): 107-112.
- 2) Yorston D, Donachie PHJ, Laidlaw DA, Steel DH, Sparrow JM, Aylward GW, Williamson TH, Members of the **BEAVRS** Retinal Detachment Outcomes Group. *Eye* 2020 Jun 24. Doi: 10.1038/s41433-020-1021-y. Online ahead of print. PMID: 32581389.

- 3) Ferrara M, Mehta A, Qureshi H, Avery P, Yorston D, Laidlaw DA, Williamson TH, Steel DH, **BEAVRS** Retinal Detachment Outcomes Group. Phenotype and outcome of phakic versus pseudophakic primary rhegmatogenous retinal detachments: Cataract or cataract surgery related? *Am J Ophthalmol* 2020 Sept 25;222: 318-327. Doi: 10.1016/j.ajo.2020.09.036. Online ahead of print.
- 4) Steel DH, Donachie PHJ, Aylward GW, Laidlaw DA, Williamson TH, Yorston D, **BEAVRS** Macular hole outcome group. *Eye* 2021; 35(1): 316-325.
- 5) Yorston D, Donachie PHY, Laidlaw DA, Steel DH, Sparrow JM, Aylward GW, Williamson TH, **BEAVRS** Retinal Detachment Outcomes Group. Factors affecting visual recovery after successful repair of macular-off retinal detachments: findings from a large prospective UK cohort study. *Eye* 2021; 35: 1431-1439.
- 6) Ferrara M, Al-Zubaidy N, Song A, Avery P, Laidlaw A, Williamson T, Yorston D, Steel DH, **BEAVRS** Retinal Detachment Outcomes Group. The effect of age on phenotype of primary rhegmatogenous retinal detachment. *Eye*, 2023; 37:114-1122.
- 7) Ferrara M, Al-Zubaidy N, Song A, Avery P, Laidlaw A, Williamson T, Yorston D, Steel DH, **BEAVRS** Retinal Detachment Outcomes Group. The effect of sex and laterality on the phenotype of primary rhegmatogenous retinal detachment. *Eye* 2023; 37: 2926-2933.
