MEDICOLEGAL PRACTICE

2022 – Present

I accept instructions for condition and prognosis reports and clinical negligence in Oral and Maxillofacial Surgery, with a subspecialist interest in facial trauma and post traumatic facial deformity. As a Major Trauma consultant, I am able provide an opinion on how the facial injury fits in the context of the patient with multiple injuries.

Instructions received	Claimant 80%; Defendant 15%; Joint 5%
Condition and prognosis	90%
Clinical negligence	10%

LEADERSHIP AND ACADEMIC POSITIONS

Sept 2025 – Present **Principal Investigator**

I am the Principal Investigator for the Mandibular Trauma and Antibiotic Use (MANTRA) study in Nottingham. The study aims to investigate antibiotic use in mandibular fractures requiring surgery.

Jan 2025 – Present **Associate Editor for the British Journal of Oral and Maxillofacial Surgery**

I have a remit to review articles with a facial trauma and deformity theme as well as helping steer the direction of the journal and to identify appropriate approaches to improve the impact factor of the journal.

July 2024 – Present **Principal Investigator**

I am the Principal Investigator on the iBeam (Immunology of Bone Healing in Traumatic Maxillofacial Injuries) study run by Nottingham Trent University. The study aims to identify bio-markers of bone healing in traumatic mandibular fractures.

May 2023 – Sept 2024 **Sub Principal Investigator**

I am the Sub Principal Investigator on the Trauma and 4-Factor Prothrombin Complex Concentrate (TAP) Study for Nottingham, which is studying the use of Prothrombin Complex Concentrate (PCC) in major haemorrhage as a result in trauma. This is an international multi-centre study run by CSL Behring, in collaboration with the Center for Injury Science at the University of Alabama at Birmingham and Nottingham is one of the participating centres.

Aug 2022 – Present **Educational Supervisor**

I am the educational supervisor for Foundation doctors in Oral and Maxillofacial Surgery and Major Trauma and for the junior fellows in Major Trauma

Mar 2022 – Aug 2023 **Chief Investigator**

I was the Chief Investigator on an undergraduate Masters research project entitled 'Exploring the unmet psychological needs in the rehabilitation of older patients following major trauma.' I was involved in the study design, data collection, analysis and write up and mentored the undergraduate student for the duration of the project. The research was used to inform Clinical Psychology workforce planning in older patients that have experienced trauma

Feb 2020 – June 2020 **Major Trauma TIG Fellow representative**

I advocated for all Major Trauma TIG fellows in the UK, and collaborated with the TIG Oversight Group to develop the curriculum and advertise the fellowship to other trainees

Oct 2018 – June 2020 **East Midlands Speciality Training Committee representative**

I was the interface between the Oral and Maxillofacial trainees and the Speciality Training Committee (STC), acting as the first point of contact for trainees with issues in their training but also disseminating information from the STC to trainees. I also created and administered a regional teaching programme which was open to ENT and Plastic Surgery trainees to draw on multi-speciality expertise
