Professional Profile

Substantive NHS Consultant Obstetrician & Gynaecologist and Clinical Lead for Obstetrics with extensive experience in high-risk and complex maternity care. Experienced labour ward consultant with strong decision-making in acute and high-pressure environments, delivering safe and efficient patient flow.

Core Skills

Labour Ward

- Consultant-level labour ward cover
- Management of high-risk and complex intrapartum cases
- Instrumental delivery and complex caesarean sections
- Escalation, risk management, and clinical leadership
- Supervision of junior staff and multidisciplinary teams

Antenatal Care

- Routine and high-risk antenatal clinics
- Maternal medicine and complex pregnancy management
- Triage and referral assessment
- Virtual and in-person clinic delivery

Obstetric Expertise

- High-risk obstetrics and complex comorbidities
- Intrapartum fetal monitoring and decision-making
- Birth planning and complex counselling
- Bereavement and post-loss care

Current Role

Consultant Obstetrician & Gynaecologist & Clinical Lead for Obstetrics
Royal London Hospital, Barts Health NHS Trust (2021–present)
- Clinical leadership of obstetric services and patient safety
- Senior decision-maker on labour ward
- Oversight of high-risk antenatal and intrapartum care
